Skillful Means:

Skillful Means John William Schroeder, 2001-01-01 This title analyzes one of the most important ideas in Buddhist philosophy the doctrine of skillful means It presents an analysis of a familiar subject thus providing a way of understanding Buddhist thought It argues that Buddhism is best understood as a philosophy of practice or a metapraxis and that terms such as emptiness non self and nirvana refer less to metaphysical principles than to skillful teachings that help people cultivate compassion and mindfulness Each section of the book focuses on a debate over philosophical justification and the problem of trying to establish a fixed doctrine in Buddhism and reveals an on going debate that is central to the various Buddhist traditions throughout Asia

Skillful Means Tarthang Tulku, 1978 Mysticism and Morality Richard H. Jones, 2004-01-01 In Mysticism and Morality author Richard Jones explores an often neglected question of religious ethics Is mysticism moral Through a discussion of several religious traditions including Hinduism Jainism Buddhism Tantrism Daoism and Christianity Jones fills a major void in the scholarly literature by considering all relevant points pertaining to mysticism Rather than looking at mysticism abstractly the book focuses on such topics as ritual practice and the processes of mystical becoming This work provides new perspectives for those interested in ethics and will prove essential to anyone interested in comparative philosophy and cross cultural studies of religion

Rulu, 2014-03-13

On the fourteenth day after His perfect enlightenment, Shakyamuni Buddha gave definitive teachings in nine assemblies. In these assemblies, He revealed to advanced Bodhisattvas the hindrance-free dharma realm of the one mind and gave them the One Vehicle to Buddhahood through the six stages of the Bodhisattva Way. These teachings are contained in the Mahāvairocana Sūtra of Buddha Adornment (Buddhavatamsaka mahāvairocana sūtra), which is revered by Chinese Buddhists as the king of all sūtras. Based on texts in the Chinese Buddhist Canon, this book's fifth presents the English translations of the teachings in this sūtra on the last two stages of the Bodhisattva Way: the Virtual Buddha Ground and the Buddha Ground. The translators' introduction summarizes the teachings in this sūtra and presents the five theses of the Huayan School of China, which explain that all things in the universe are interconnected and in complete unity. This book will benefit readers at all levels and can serve as a basis for scholarly research.
