American Adventurism Abroad Michael J. Sullivan, 2004-08-30 This book provides a comparative analysis of 30 American interventions into Third World countries An historical approach is used to place the featured cases into a more general history of American Diplomacy The author uses his assessments to prove that U S foreign policy has been driven by the goal of being the ultimate power in the global capitalist economic system The author makes his work unique by giving a critical view of America's place in the world during an anticipated time of war and raised patriotism He provides a scholarly look at U S diplomacy leading up to the era of the War on Terror Sullivan explains how over the past 50 years the U S has come to succeed Europe as ruler of the global economic system The political systems which have been promoted by the U S to preserve worldwide capitalism range from one party rule to monarchies and recurring civil war The interventions discussed have proved to be short term successes for U S policy but more often tragic for the local societies affected Sullivan draws on his 1996 release *Comparing State Politics* to create a number of tables that place U S involvement into geographic and hierarchic perspective The reader is ultimately provided with a provocative thesis that challenges traditional interpretations of America's role in the world This book will be an asset to any undergraduate college student taking classes in political science or history It will also appeal to a general audience

NGO Game Patrice C. McMahon,2017-06-13 In most post conflict countries nongovernmental organizations are everywhere

but their presence is misunderstood In *The NGO Game* Patrice McMahon investigates the unintended outcomes of what she calls the NGO boom in Bosnia and Kosovo Using her years of fieldwork and interviews McMahon argues that when international actors try to rebuild and reconstruct post conflict countries they often rely on and look to NGOs Although policymakers and scholars tend to accept and even celebrate NGO involvement in post conflict and transitioning countries they rarely examine why NGOs have become so popular what NGOs do or how they affect everyday life After a conflict international NGOs descend on a country local NGOs pop up everywhere and money and energy flow into strengthening the organizations In time the frenzy of activity slows the internationals go home local groups disappear from sight and the NGO boom goes bust Instead of peace and stability the embrace of NGOs and the enthusiasm for international peacebuilding turns to disappointment if not cynicism For many in the Balkans and other post conflict environments NGOs are not an aid to building a lasting peace but are part of the problem because of the turmoil they foster during their life cycles in a given country *The NGO Game* will be useful to practitioners and policymakers interested in improving peacebuilding the role of NGOs in peace and development and the sustainability of local initiatives in post conflict countries
