**Revolutionary Retailing** Robert Kramer, 2004-06 Sunset Illusions may be one of the most unusual stories ever told In an expanding Universe with forward moving time Sam Hevi had to do his job raise his family and maintain his dignity as a human being These were not easy tasks in the difficult world he faced Sam Hevi an astronomer and leader of the freedom movement had to try to live free within a government that didn't believe in freedom He had to search for truth in a world driven by unquestioned belief and he had to try to find reality in a life smothered in illusion These were not easy tasks in the difficult world he faced All seemed to be going about as well as could reasonably be expected until the day Sam lost his wife It was the first blow to his world The second came with the loss of his brother and best friend in the war The final blow came toward the end of his life when his only son had him committed to the government's Old Folks home an acknowledged warehouse for senile senior citizens In many ways this last act was the worst blow of all because it shattered Sam's self esteem He was determined that this was the final intolerable indignity he would ever face It took some planning but Sam did make his final escape At least that's what he thought After his escape Sam woke up very cold and confused He realized that something was not quite right Things were the same and yet different at the same time It took him awhile to find out why but when he did he couldn't believe it He had awakened in a world that looked the same as before but now the Universe was contracting and time was running backwards That alone was a shock especially when he discovered that time was running in reverse and he was going to have to live his life over again only this time he had to do it backwards Welcome to Sunset Illusions

*It's Not the Bricks, It's the Mortar* Mike Cosentino, 2025-05-06

Bricks Are Great But Mortar Holds It All Together Brick and mortar retail has faced unprecedented challenges mass store closures the rise of online marketplaces economic shocks and a global pandemic Successful entrepreneur and business mentor Mike Cosentino knows these are the times when leaders must tighten their operational grip and take control of their businesses but also recognize when to step back Drawing from personal crises and an honest assessment of his prior leadership strategies Cosentino argues that a service based business thrives when its team is empowered to operate independently of the leader at the top In 2005 Cosentino was faced with serious health problems in his newborn daughter His forced absence from his company didn't lead to disaster as he feared instead it highlighted the value of having the right people and systems in place This experience inspired Cosentino to refine his leadership approach and share it with others through concepts like Uninvolved Optimization a method that empowers teams through and Involved Maximization which builds both soft and hard skills equipping teams to drive the business forward It's Not The Bricks It's The Mortar provides service based business leaders with battle tested customer focused processes like Experience by Committee the Service Quotient and the Immutable Laws of Resource Acquisition Designed to be fully realized through task delegation these concepts help leaders achieve operational independence even in the most challenging environments Cosentino's methods show that when service and performance matter most it's the mortar the enduring skills systems and empowered teams that truly hold the bricks together
