both fiction and real life *John le Carré and the Cold War* Toby Manning, 2018-01-25 John le Carré and the Cold War explores the historical contexts and political implications of le Carré's major Cold War novels. The first in-depth study of le Carré this century, this book analyses his work in light of key topics in 20th-century history including containment of Communism, decolonization, the Berlin Wall, the Cuban missile crisis, the Cambridge spy ring, the Vietnam War, the 70s oil crisis, and Thatcherism. Examining *The Spy Who Came in from the Cold* (1963), *Tinker Tailor Soldier Spy* (1974), *Smiley's People* (1979), and other novels, this book offers an illuminating picture of Cold War Britain while situating le Carré's work alongside that of George Orwell, Graham Greene, and Ian Fleming. Providing a valuable contribution to contemporary understandings of both British spy fiction and post-war fiction, Toby Manning challenges the critical consensus to reveal a considerably less radical writer than is conventionally presented.

Disgust and Desire Kristen Wright, 2018-01-03 Monsters have taken many forms across time and cultures, yet within these variations, monsters often evoke the same paradoxical response: disgust and desire. We simultaneously fear monsters and take pleasure in seeing them, and their role in human culture helps to explain this apparent contradiction. Monsters are created in order to delineate where the acceptable boundaries of action and emotion exist. However, while killing the monster allows us to cast out socially unacceptable desires, the prevalence of monsters in both history and fiction reveals humanity's desire to see and experience the forbidden. We seek to write about and display monsters as both a warning and wish fulfilment, and monsters therefore reveal that the line between desire and disgust is often thin. Looking across genres, subjects, and periods, this book examines what our conflicted reaction to the monster tells us about human culture.

Looking-Glass Wars: Spies on British Screens since 1960 Alan Burton, 2018-01-31 *Looking Glass Wars: Spies on British Screens since 1960* is a detailed historical and critical overview of espionage in British film and television in the important period since 1960. From that date, the British spy screen was transformed under the influence of the tremendous success of James Bond in the cinema, the spy thriller, and of the new style spy writing of John le Carré and Len Deighton. The espionage story. In the 1960s, there developed a popular cycle of spy thrillers in the cinema and on television. The new study looks in detail at the cycle, which in previous work has been largely neglected in favour of the James Bond films. The study also brings new attention to espionage on British television and popular secret agent series such as *Spy Trap*, *Quiller*, and *The Sandbaggers*. It also gives attention to the more realistic representation of spying in the film and television adaptations of le Carré and Deighton and other dramas with a more serious intent. In addition, there is wholly original attention given to nostalgic spy fictions on screen, adaptations of classic stories of espionage which were popular in the late 1970s and through the 1980s, and to historical spy fiction dramas which treated real cases of espionage and their characters, most notably the notorious Cambridge Spies. Detailed attention is also given to the secret state thriller, a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light, best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service. The study is brought up to date with

an examination of screen espionage in Britain since the end of the Cold War The approach is empirical and historical The study examines the production and reception literary and historical contexts of the films and dramas It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films series and serials never previously considered [Image and Ideology in Modern/Postmodern Discourse](#) David B. Cover Stories (Routledge Revivals) Michael Denning, 2014-07-11 First published in 1987 this title tracks the spy thriller from John Buchanan to Eric Ambler Ian Fleming and John Le Carr and shows how these tales of spies moles and the secret service tell a history of modern society translating the political and cultural transformations of the twentieth century into the intrigues of a shadow world of secret agents Combining cultural history with narrative analysis Cover Stories explores the two main traditions of the thriller the thriller of the work in which bureaucratic routines are invested with political meaning and the thriller of leisure in which the sports and games that kill time become a time of dangerous political contests Examining the characteristic narrative structures of the spy novel the adventure formulas and the plots of betrayal disguise and doubles Denning shows how they attempt to resolve crises and contradictions in ideologies of nation and empire and of class and gender

The Special Branch LeRoy Panek, 1981 The author has chosen seventeen of the most important or representative British spy novelists to write about He presents some basic literary analysis and criticism trying both to place them in historical perspective and to describe and analyze the content and form of their fiction
