The History and Archaeology of the Iroquois du Nord Ronald F. Williamson, Robert von Bitter, 2023-03-21 In the mid to late 1660s and early 1670s the Haudenosaunee established a series of settlements at strategic locations along the trade routes inland at short distances from the north shore of Lake Ontario From east to west these communities consisted of Ganneious on Napanee or Hay Bay on the Bay of Quinte Kent near the isthmus of the Quinte Peninsula Ganarask at the mouth of the Ganaraska River Quintio on Rice Lake Ganatsekwyagon near the mouth of the Rouge River Teiaiaagon near the mouth of the Humber River and Qutinaouatoua inland from the western end of Lake Ontario All of these settlements likely contained people from several Haudenosaunee nations as well as former Ontario Iroquoians who had been adopted by the Haudenosaunee These self sufficient places acted as bases for their own inhabitants but also served as stopovers for south shore Haudenosaunee on their way to and from the beaver hunt beyond the lower Great Lakes The Cayuga village of Kent was where in 1668 the Sulpicians established a mission by the same name which became the basis for the region s later name of Quinte In 1676 a short lived subsidiary mission was established at Teiaiaagon It appears that most of the north shore villages were abandoned by 1688 This volume brings together traditional Indigenous knowledge as well as documentary and recent archaeological evidence of this period and focuses on describing the historical context and efforts to find the settlements and presents examinations of the unique material culture found at them and at similar communities in the Haudenosaunee homeland Available formats trade paperback and accessible PDF

Clay Tobacco Pipes and the Fur Trade of the Pacific Northwest and Northern Plains Michael A. Pfeiffer, 2006-12 Clay tobacco pipes are a unique form of artifact that has been recovered from the earliest colonial period sites to those of the early twentieth century Archaeologists have found this artifact category useful for interpretive purposes due to their rapid technological and typological change decoration and maker s marks Lack of adequate reporting in older site reports precludes a wide range of interpretive values intrinsic to this

artifact category A detailed study of tobacco pipe assemblages from the Pacific Northwest and Northern Plains in an 1800 to 1890s time frame demonstrates the interpretive value of this category on an intrasite regional and interregional basis The detailed analysis given the pipes and pipe assemblages provides a historical background that encompasses the artifacts the manufacturers the sites the relationships of the sites and their place in the development of these regions These tobacco pipes reflect the marketing and trade histories of these regions as well as many of the cultural subgroups

Smoking and Culture Sean Michael Rafferty, Rob Mann, 2004 Because of the ceremonial and ritual aspects of the practice in Native American societies smoking pipes are important cultural artifacts The essays in Smoking and Culture constitute the first sustained interpretive study of smoking pipes focusing on the cultural significance of smoking both before and after European contact

Thomas Hatley, 2006-12-01 Considered to be one of the all time classic studies of southeastern Native peoples Powhatan's Mantle proves more topical comprehensive and insightful than ever before in this revised edition for twenty first century scholars and students Archaeology and Ancient Religion in the American Midcontinent Brad H. Koldehoff, Timothy R. Pauketat, 2018-11-06 Analyses of big datasets signal important directions for the archaeology of religion in the Archaic to Mississippian Native North America Across North America huge data accumulations derived from decades of cultural resource management studies combined with old museum collections provide archaeologists with unparalleled opportunities to explore new questions about the lives of ancient native peoples For many years the topics of technology economy and political organization have received the most research attention while ritual religion and symbolic expression have largely been ignored This was often the case because researchers considered such topics beyond reach of their methods and data In Archaeology and Ancient Religion in the American Midcontinent editors Brad H Koldehoff and Timothy R Pauketat and their contributors demonstrate that this notion is outdated through their analyses of a series of large datasets from the midcontinent ranging from tiny charred seeds to the cosmic alignments of mounds they consider new questions about the religious practices and lives of native peoples At the core of this volume are case studies that explore religious practices from the Cahokia area and surrounding Illinois uplands Additional chapters explore these topics using data collected from sites and landscapes scattered along the Mississippi and Ohio River valleys This innovative work facilitates a greater appreciation for and understanding of ancient native religious practices especially their seamless connections to everyday life and livelihood The contributors do not advocate for a reduced emphasis on technology economy and political organization rather they recommend expanding the scope of such studies to include considerations of how religious practices shaped the locations of sites the character of artifacts and the content and arrangement of sites and features They also highlight analytical approaches that are applicable to archaeological datasets from across the Americas and beyond At the Font of the Marvelous Anthony Wonderley, 2009-06-01 The folktales and myths of the Iroquois and their Algonquian neighbors rank among the most imaginatively rich and narratively coherent traditions in North America Inspired by these wondrous tales

Anthony Wonderley explores their significance to Iroquois and Algonquian religions and worldviews. Mostly recorded around 1900, these oral narratives preserve the voice and something of the outlook of autochthonous Americans from a bygone age when storytelling was an important facet of daily life. Grouping the stories around shared themes and motifs, Wonderley analyzes topics ranging from cannibal giants to cultural heroes and from legends of local places to myths of human origin. Approached comparatively and historically, these stories can enrich our understanding of archaeological remains, ethnic boundaries, and past cultural interchanges among Iroquois and Algonquian peoples.

The Encyclopedia of Psychoactive Plants Christian Rätsch, 2005-04-25. The most comprehensive guide to the botany, history, distribution, and cultivation of all known psychoactive plants. Examines 414 psychoactive plants and related substances. Explores how using psychoactive plants in a culturally sanctioned context can produce important insights into the nature of reality. Contains 797 color photographs and 645 black and white illustrations. In the traditions of every culture, plants have been highly valued for their nourishing, healing, and transformative properties. The most powerful plants, those known to transport the human mind into other dimensions of consciousness, have traditionally been regarded as sacred. In *The Encyclopedia of Psychoactive Plants*, Christian Rätsch details the botany, history, distribution, cultivation, and preparation and dosage of more than 400 psychoactive plants. He discusses their ritual and medicinal usage, cultural artifacts made from these plants, and works of art that either represent or have been inspired by them. The author begins with 168 of the most well-known psychoactives such as cannabis, datura, and papaver, then presents 133 lesser-known substances as well as additional plants known as legal highs, plants known only from mythological contexts, and literature and plant products that include substances such as ayahuasca, incense, and soma. The text is lavishly illustrated with 797 color photographs, many of which are from the author's extensive fieldwork around the world, showing the people, ceremonies, and art related to the ritual use of the world's sacred psychoactives.

Green Brook Sub-basin Flood Control, 1981. *Montreal* Dany Fougères, Roderick MacLeod, 2018-04-06. Surrounded by water and located at the heart of a fertile plain, the Island of Montreal has been a crossroads for Indigenous peoples, European settlers, and today's citizens, and an inland port city for the movement of people and goods into and out of North America. Commemorating the city's 375th anniversary, *Montreal: The History of a North American City* is the definitive two-volume account of this fascinating metropolis and its storied hinterland. This comprehensive collection of essays, filled with hundreds of illustrations, photographs, and maps, draws on human geography and environmental history to show that while certain distinctive features remain unchanged—Mount Royal, the Lachine Rapids of the Saint Lawrence River, human intervention, and

urban evolution mean that over time Montrealers have had drastically different experiences and historical understandings. Significant issues such as religion, government, social conditions, the economy, labour, transportation, culture, and entertainment and scientific and technological innovation are treated thematically in innovative and diverse chapters to illuminate how people's lives changed along with the transformation of Montreal. This history of a city in motion presents an entire picture of the changes that have marked the region as it spread from the old city of Ville Marie into parishes, autonomous towns, boroughs, and suburbs on and off the island. The first volume encompasses the city up to 1930, vividly depicting the lives of First Nations prior to the arrival of Europeans, colonization by the French, and the beginning of British Rule. The crucial roles of waterways, portaging paths and trails as the primary means of travelling and trade are first examined before delving into the construction of canals, railways, and the first major roads. Nineteenth-century industrialization created a period of near-total change in Montreal as it became Canada's leading city and witnessed staggering population growth from less than 20,000 people in 1800 to over one million by 1930. The second volume treats the history of Montreal since 1930, the year that the Jacques Cartier Bridge was opened and allowed for the outward expansion of a region which before had been confined to the island. From the Great Depression and Montreal's role as a munitions manufacturing centre during the Second World War to major cultural events like Expo 67, the twentieth century saw Montreal grow into one of the continent's largest cities, requiring stringent management of infrastructure, public utilities, and transportation. This volume also extensively studies the kinds of political debate with which the region and country still grapple regarding language, nationalism, federalism, and self-determination. Contributors include Philippe Apparicio (INRS), Guy Bellavance (INRS), Laurence Bherer (University of Montreal), Stéphane Castonguay (UQTR), the late Jean-Pierre Collin (INRS), Magda Fahrni (UQAM), the late Jean-Marie Fecteau (UQAM), Dany Fougères (UQAM), Robert Gagnon (UQAM), Danielle Gauvreau (Concordia), Annick Germain (INRS), Janice Harvey (Dawson College), Annie Claude Labrecque (independent scholar), Yvan Lamonde (McGill), Daniel Latouche (INRS), Roderick MacLeod (independent scholar), Paula Negron Poblete (University of Montreal), Normand Perron (INRS), Martin Petitclerc (UQAM), Christian Poirier (INRS), Claire Poitras (INRS), Mario Polèse (INRS), Myriam Richard (unaffiliated), Damaris Rose (INRS), Anne-Marie Sguin (INRS), Gilles Sénécal (INRS), Valérie Shaffer (independent scholar), Richard Shearmur (McGill), Sylvie Taschereau (UQTR), Michel Trpanier (INRS), Laurent Turcot (UQTR), Nathalie Vachon (INRS), and Roland Viau (University of Montreal).

I, Too, Am America Theresa A. Singleton, 1999. The moral mission archaeology set in motion by black activists in the 1960s and 1970s sought to tell the story of Americans, particularly African Americans, forgotten by the written record. Today, the archaeological study of African American life is no longer simply an effort to capture unrecorded aspects of black history or to exhume the heritage of a neglected community. Archaeologists now recognize that one cannot fully comprehend the European colonial experience in the Americas without understanding its African counterpart. This collection of essays reflects and extends the broad spectrum of scholarship arising from this expanded definition of African

American archaeology treating such issues as the analysis and representation of cultural identity race gender and class cultural interaction and change relations of power and domination and the sociopolitics of archaeological practice I Too Am America expands African American archaeology into an inclusive historical vision and identifies promising areas for future study *Levanna* Jack Rossen, 2019-06-14 Levanna was a famous and well visited archaeological site in central New York along the eastern side of Cayuga Lake during the Great Depression It was primarily known for its spectacular animal effigies But were they real or forgeries Jack Rossen takes us on a journey through the 1920s and 1930s the era of an outdoor museum and professional attempts by the Society for American Archaeology SAA to suppress it Larger than life characters include Arthur C Parker future President of the SAA William A Ritchie future State Archaeologist of New York and Harrison C Follett the entrepreneurial archaeologist The book also takes us through the 2007 2009 re excavation of Levanna and the related 2011 2014 excavations at the Myers Farm site Along the way Cayuga history is reinterpreted as more peaceful than previously believed and the case is made for a Haudenosaunee Iroquois Confederacy more than one thousand years old An older confederacy is more in line with oral traditions than previous archaeological ideas of a brief confederacy that began either just before or after European contact The work was conducted through the framework of indigenous collaborative archaeology with leaders of the Cayuga and Haudenosaunee Confederacy The narrative approach includes stories of the contemporary people both Native and non Native who protected the site supported the research and provided ideas wisdom inspiration and friendship **Tracks that Speak** Charles L.
