Smoking in British Popular Culture 1800-2000 Matthew Hilton, 2000-09-02 This book is a concise history of smoking in British popular culture from the early 19th century to the present day It explores the culture of the pipe and the cigar in the 19th century the role of the cigarette in the mass market economy of the early 20th century and the politics of smoking and health since the 1950s Combining a wide range of historical sources with examples drawn from film and popular literature it provides a comprehensive social cultural and economic history of smoking *A Historical Guide to NGOs in Britain* M. Hilton, N. Crowson, J. Mouhot, J. McKay, 2012-07-20 Aiming to furnish the reader with the historical data to engage with the debates surrounding the Cameron government's Big Society and civil society this book gives the reader a greater and more informed historical consciousness of how the NGO sector has grown and influenced **Smell in**

Eighteenth-century England William Tullett, 2019 In England from the 1670s to the 1820s a transformation took place in how smell and the senses were viewed The role of smell in developing medical and scientific knowledge came under intense scrutiny and the equation of smell with disease was actively questioned Yet a new interest in smell's emotive and

idiosyncratic dimensions offered odour a new power in the sociable spaces of eighteenth century England Using a wide range of sources from diaries letters and sanitary records to satirical prints consumer objects and magazines William Tullett traces how individuals and communities perceived the smells around them from paint and perfume to onions and farts In doing so the study challenges a popular influential and often cited narrative Smell in Eighteenth Century England is not a tale of the medicalization and deodorization of English olfactory culture Instead Tullett demonstrates that it was a new recognition of smell s asocial sociability and its capacity to create atmospheres of uncomfortable intimacy that transformed the relationship between the senses and society

Victorian Nightshades Elizabeth A. Campbell, 2025-03-27 A darkly alluring plant family and the arrival of modernity Victorian Nightshades tells the story of how one plant family notorious for centuries in England because of its frequently psychoactive and poisonous properties rose to social and economic prevalence during the nineteenth century Beginning with bittersweet and belladonna the Old World species associated with evil witchcraft and dangerous women in an era when traditional botanical beliefs not only assigned morality to plants but also gendered them Campbell then moves to the ubiquitous potato and tobacco before concluding with four of the Solanaceae that achieved the widest national favor by the end of the century the ornamental petunia and the edible pepper eggplant and tomato The story of the nightshades exposes the conflicts between science and popular sentiment and between knowledge and received opinion that defined the nineteenth century Campbell compellingly details how advances in medical and botanical knowledge evolutionary theory and the vagaries of human desire transformed the Solanaceae from a plant family plagued by fear and hostility in the British imagination to one of cultural favor and celebration by the turn of the century encapsulating the Victorian era s course to modernity

Austerity Britain, 1945-1951 David Kynaston, 2008-05-13 A people s history of post World War II England is a social profile that links everyday lives to period events while paying tribute to the nation s passionate dedication to its survival and rebuilding in an account that also traces the stories of such individuals as journalist Jon Arlott actress Glenda Jackson and writer Doris Lessing 10 000 first printing

The Tobacco Challenge Geraint Howells, 2016-02-17 Addressing three central questions of legal policy this is an interesting and comprehensive analysis of the need to control and regulate tobacco consumption The core issues of the book are litigation vs regulation with a comparative analysis of the US and European approaches the challenge to regulate tobacco as a lawful product within constitutional limits to promote the reduction of risks to health and the extent to which consumers should be entrusted with information to make their own informed choices Suggesting dialogue and transparency in policy development this book covers advertising psychology ethics economics and health in addition to the central debate about the litigation and regulation of tobacco and the role of consumer protection law and private law

Strong, Beautiful and Modern Charlotte Macdonald, 2013-01-20 In the late 1930s and early 1940s a wave of state sponsored national fitness programs swept Britain and its former settler colonies laying the foundations for the twentieth century s obsession with fitness In Strong Beautiful

and Modern Charlotte Macdonald shows how governments encouraged citizens to be healthier and more active and thereby reinforced the cultural ties of the Empire Alongside these state sponsored efforts was a growing emphasis from business the medical establishment and popular culture on the importance of having a better body At a time when government concern over public health issues such as obesity is once again on the rise Macdonald offers valuable lessons as to why the first national fitness drive was ultimately a failure Drawing on extensive research Strong Beautiful and Modern is a lively investigation into the way people and their governments think about health and well being and how historical views have shaped our modern life

London Clubland A. Milne-Smith, 2011-11-15 This work is the first to study the gentlemen s clubs that were an important feature of the Late Victorian landscape and the first to discover the secret history of clubmen and their world placing them at centre stage detailing how clubland dramatically shaped 19th and early 20th century ideas about gender power class and the city
