lives in rural India Using a method that began with activist research the organization developed a sectoral analysis of groups of women who were hardest hit in the new neoliberal order including Muslim women and Dalit oppressed caste women AIDWA developed what leaders called inter sectoral organizing that centered the demands of the most vulnerable women into the heart of its campaigns and its ideology for social change Through long term ethnographic research predominantly in the northern state of Haryana and the southern state of Tamil Nadu this book shows how a socialist women s organization built its oppositional strength by organizing the women most marginalized by neoliberal policies and economics
