# Studien Zur Geschichte Der Italienischen Oper Im 17jahrhundert Vols 1

**British Museum. Dept. of Printed  
Books**

## **Studien Zur Geschichte Der Italienischen Oper Im 17Jahrhundert Vols 1 :**

*Studien zur Geschichte der italienischen Oper im 17. Jahrhundert* Hugo Goldschmidt, 1901      *A History of Baroque Music* George J. Buelow, 2004-11-23 *A History of Baroque Music* is a detailed treatment of the music of the Baroque era with particular focus on the seventeenth century The author s approach is a history of musical style with an emphasis on musical scores The book is divided initially by time period into early and later Baroque 1600 1700 and 1700 1750 respectively and secondarily by country and composer An introductory chapter discusses stylistic continuity with the late Renaissance and examines the etymology of the term Baroque The concluding chapter on the composer Telemann addresses the stylistic shift that led to the end of the Baroque and the transition into the Classical period Jacket      **A Short History of Opera** Donald J. Grout, Hermine Weigel Williams, 2003-07-18 When first published in 1947 *A Short History of Opera* immediately achieved international status as a classic in the field Now more than five decades later this thoroughly revised and expanded fourth edition informs and entertains opera lovers just as its predecessors have The fourth edition incorporates new scholarship that traces the most important developments in the evolution of musical drama After surveying anticipations of the operatic form in the lyric theater of the Greeks medieval dramatic music and other forerunners the book reveals the genre s beginnings in the seventeenth century and follows its progress to the present day *A Short History of Opera* examines not only the standard performance repertoire but also works considered important for the genre s development Its expanded scope investigates opera from Eastern European countries and Finland The section on twentieth century opera has been reorganized around national operatic traditions including a chapter devoted solely to opera in the United States which incorporates material on the American musical and ties between classical opera and popular musical theater A separate section on Chinese opera is also included With an extensive multilanguage bibliography more than one hundred musical examples and stage illustrations this authoritative one volume survey will be invaluable to students and serious opera buffs New fans will also find it highly accessible and informative Extremely thorough in its coverage *A Short History of Opera* is now more than ever the book to turn to for anyone who wants to know about the history of this art form      **Studien zur Geschichte der italienischen Oper im 17. Jahrhundert** Hugo Goldschmidt,      **A History of the Oratorio** Howard E. Smither, 2012-09-01 Howard Smither has written the first definitive work on the history of the oratorio since Arnold Schering published his *Geschichte des Oratoriums* in 1911 This volume is the first of a four volume comprehensive study that offers a new synthesis of what is known to date about the oratorio Volume 1 divided into three parts opens with the examination of the medieval Renaissance and early Baroque antecedents and origins of the oratorio with emphasis on Rome and Philip Neri s Congregation of the Oratory and with special attention to the earliest works for which the term oratorio seems appropriate The second part recounts the development of the oratorio in Italy circa 1640 1720 It reviews the social contexts patrons composers poets librettos and music of the oratorio in Italy especially in Vienna and Paris The procedure adapted throughout the work is to

treat first the social context particularly the circumstances of performance of the oratorio in a given area and period then to treat the libretto and finally the music For each geographic area and period the author has selected for special attention a few oratorios that appear to be particularly important or representative He has verified the information offered in the specialized literature whenever possible by reference to the music or documents In a number of areas particular seventeenth century Italy in which relatively few previous studies have been undertaken or secondary sources have proven to be inadequate the author has examined the primary sources in manuscript and printed form music librettos and documents of early oratorio history Impressive research and intelligent integration of disparate elements make this complicated diffuse subject both readable and accessible to the student of music Volume 2 The Oratorio in the Baroque Era Protestant Germany and England and Volume 3 The Oratorio in the Classical Era continue and expand the study of oratorio history Although this series was originally announced as a three volume study Smither will conclude with a fourth volume This new work the first English language study of the history of the oratorio will become the standard work on its subject and an enduring contribution to music and scholarship Originally published in 1977 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value Studien zur Geschichte der italienischen Oper im 17. Jahrhundert: Das Musikdrama: L'incoronazione di Poppea, von Giov. Franc. Busenello, in Musik gesetzt von Claudio Monteverdi, aufgeführt zu Venedig im Teatro Grimano im Jahre 1642; Musik und Drama; Libretto von 1656; Revisionsbericht und Partitur Hugo Goldschmidt, 1904 *List of Books Forming the Reference Library in the Reading Room of the British Museum* British Museum. Dept. of Printed Books, 1910 **An Outline of the History of Music** Karl Nef, 2020-11-19 This series inaugurated by the Columbia University Press is intended to meet the needs of the English speaking student for the crystallization of various phases of musical knowledge around which the rapidly expanding material may be oriented The choice of the 1st volume of the series was dictated by the desire to provide an introductory manual which would be of interest to the beginner in musical history since a scholarly view of the development of the art must be the foundation of scholarly research into special problems The Outline of the History of Music by the late Professor Nef of Basle is such a work It was written by a trained musicologist of broad tastes who was reliable in his judgements concerning recent developments in musical history and also of its early phases *Heinrich Schenker*, 1978 Originally published in 1966 the Reeseschrift remains one of the most significant collections of musicological writings ever assembled Its fifty six essays written by some of the greatest scholars of our time range chronologically from antiquity to the 17th century and geographically from Byzantium to the British Isles They deal with questions of history style form texture notation and performance practice **Annual List of New and Important Books Added to the Public Library of the City of Boston** Boston Public Library, 1906
