Studies In African Law:

Studies in African Law Julius Lewin, 1971 **Studies in African Native Law** Julius Lewin, 2016-11-11 This book offers a firsthand examination of legal practice in colonial Africa during the first half of the twentieth century. The author evaluates the place of tribal law in the legal system of South Africa and the complex problems that arise from the conflicting laws of merging cultures. Some of the questions he asks are: What is the relation of tribal law to the common law of the country, especially on the same subject? Can tribal law be developed to keep pace with the changing conditions of tribal society? What is the future of tribal law in South Africa? These questions have sociological implications that reach far beyond the African continent and the waning colonial period during which they were posed.

African Law Hilda Kuper, Leo Kuper, 2022-05-27 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1965.

African Law(s) Salvatore Mancuso, 2023-09-29 This book takes a comparative law perspective and proposes a new approach for researching law in Africa. Western theoretical perspectives in comparative law are too Eurocentric to fully catch the peculiarities and characteristics of the African lawscape; in short, they are inadequate for studying African law. In this book, Professor Salvatore Mancuso considers the law in Africa from a different perspective. Deeply rooted in the culture of the African people, this approach considers African legal culture with the same legitimacy as Western legal culture, setting a precedent for future policy-making decisions relating to legislative development in Africa.

New Directions in Africa-China Studies Chris Alden, Daniel Large, 2018-07-17 Interest in China and Africa is growing exponentially. Taking a step back from the events-driven reactions characterizing much coverage, this timely book reflects more deeply on questions concerning how this subject has been, is being, and can be studied. It offers a comprehensive, multi-disciplinary and authoritative contribution to Africa-China studies. Its diverse chapters explore key current research themes and debates such as agency, media, race, ivory, development, or security, using a variety of case studies from Benin, Kenya, and Tanzania to Angola, Mozambique, and Mauritius. Looking back, it explores the evolution of studies about Africa and China. Looking forward, it explores alternative future possibilities for a complex and constantly evolving subject. Showcasing a range of perspectives by leading and emerging scholars, *New Directions in Africa-China Studies* is an essential resource for students and scholars of Africa and China relations.

African Legal Theory and Contemporary Problems Oche

Onazi, 2013-11-26 The book is a collection of essays which aim to situate African legal theory in the context of the myriad of contemporary global challenges from the prevalence of war to the misery of poverty and disease to the crises of the environment Apart from being problems that have an indelible African mark on them a common theme that runs throughout the essays in this book is that African legal theory has been excluded under explored or under theorised in the search for solutions to such contemporary problems The essays make a modest attempt to reverse this trend The contributors investigate and introduce readers to the key issues questions concepts impulses and problems that underpin the idea of African legal theory They outline the potential offered by African legal theory and open up its key concepts and impulses for critical scrutiny This is done in order to develop a better understanding of the extent to which African legal theory can contribute to discourses seeking to address some of the challenges that confront African and non African societies alike
