Studies In Archaic Corinthian Vase Painting:

Studies in Archaic Corinthian Vase Painting Darrell Arlynn Amyx, Patricia Lawrence, 1996 Two important contributions to Greek pottery studies Aftermath by D A Amyx is a catalogue of material supplementing his work in Corinth VII 2 but found after the cutoff of 1969 or omitted for some other reason This article and Corinth VII 2 together stand as a full compilation of painters at present represented in the collection of the Corinth Excavations The Chimaera Group at Corinth and Dodwellians in the Potters Quarter are both by Patricia Lawrence The first is a thoughtful analysis of this group of painters based on a close examination of material found in the excavations at Corinth but including attributed pieces from other sites The second studies 15 new fragments and reexamines material previously published in Corinth XV 3 demonstrating that the Geladakis Painter as well as several Dodwellians are represented there **Corinthian Vase-painting of the Archaic Period** Darrell

Ancient Greece and Beyond Eric Csapo, Margaret C. Miller, 2007-01-15 Publisher description *Consumerism in the Ancient World* Justin St. P. Walsh, 2013-11-26 Greek pottery was exported around the ancient world in vast quantities over a period of several centuries This book focuses on the Greek pottery consumed by people in the western Mediterranean and trans Alpine Europe from 800 300 BCE attempting to understand the distribution of vases and particularly the reasons why people who were not Greek decided to acquire them This new approach includes discussion of the ways in which objects take on different meanings in new contexts the linkages between the consumption of goods and identity construction and the utility of objects for signaling positive information about their owners to their community The study includes a database of almost 24 000 artifacts from more than 230 sites in Portugal Spain France Switzerland and Germany This data was mapped and analyzed using geostatistical techniques to reveal different patterns of consumption in different places and at different times The development of the new approaches explored in this book has resulted in a shift away from reliance on the preserved fragments of ancient Greek authors descriptions of western Europe remains of monumental buildings and major artworks and toward investigation of social life and more prosaic forms of material culture **ADDITIONAL E RESOURCES FOR**
