Studies In British Imperial History Essays In Honor Of A P Thornton:

Studies in British Imperial History Gordon Martel, 1986-06-16 Studies in British Imperial History Archibald Paton Thornton, Gordon Martel, 1986 **The New Imperial Histories Reader** Stephen Howe, 2020-07-24 In recent years imperial history has experienced a newfound vigour dynamism and diversity There has been an explosion of new work in the field which has been driven into even greater prominence by contemporary world events However this resurgence has brought with it disputes between those who are labelled as exponents of a new imperial history and those who can by default be termed old imperial historians This collection not only gathers together some of the most important influential and controversial work which has come to be labelled new imperial history but also presents key examples of innovative recent writing across the broader fields of imperial and colonial studies This book is the perfect companion for any student interested in empires and global history *Empire in Question* Antoinette Burton, 2011-05-03 Essays written by Antoinette Burton since the mid 1990s trace her thinking about modern British history and engage debates about how to think about British imperialism in light of contemporary events *The Cult of Imperial Honor in British India* S. Patterson, 2009-03-30 What was imperial honor and how did it sustain the British Raj If No man may harm me with impunity was an ancient theme of the European aristocracy British imperialists of almost all classes in India possessed a similar vision of themselves as overlords belonging to an honorable race so that ideals of honor condoned and sanctified their rituals connecting them with status power and authority Honor most broadly legitimated imperial rule since imperialists ostensibly kept India safe from outside threats Yet at the individual level honor kept the white herd together providing the protocols and etiquette for the imperialist who had to conform to the strict notions of proper and improper behavior in a society that was always obsessed with maintaining its dominance over India and Indians Examining imperial society through the prism of honor therefore opens up a new methodology for the study of British India Ireland and the Federal Solution John Kendle, 1989-01-01 The debate over internal constitutional change took place at a time when many people were concerned about relations between Great Britain and the self governing colonies The issue of Imperial federation was continuously and exhaustively discussed and promoted from the late 1860s through World War I The waters became so muddled that at times it has been difficult to separate arguments for closer imperial union from proposals for internal decentralization Kendle comments extensively on this confusion During the fifty years from the early 1870s to the establishment of the Irish Free State in 1922 politicians and publicists devoted considerable energy and attention to the notions of home rule all round devolution and federalism as possible means of resolving the urgent political administrative and constitutional issues confronting the United Kingdom The increasing complexity of government business the gathering forces of ethnic nationalism in Ireland Scotland and Wales and concern with maintaining and strengthening the role of the parliament at Westminster in imperial affairs combined to keep the possibility of decentralization at the forefront of political and public debate Kendle explores and analyzes the motives and

attitudes of participants in this debate and looks at the schemes and proposals that resulted from this power struggle Ireland and the Federal Solution gives a lucid appraisal of what was meant at the time by the terms federalism home rule all round and devolution and evaluates how firmly the participants grasped the constitutional similarities and differences between existing federal systems

Across Cultural Borders Eckhardt Fuchs, Benedikt Stuchtey, 2002 This innovative work offers the first comprehensive transcultural history of historiography The contributors transcend a Eurocentric approach not only in terms of the individual historiographies they assess but also in the methodologies they use for comparative analysis Moving beyond the traditional national focus of historiography the book offers a genuinely comparative consideration of the commonalities and differences in writing history Distinguishing among distinct cultural identities the contributors consider the ways and means of intellectual transfers and assess the strength of local historiographical traditions as they are challenged from outside The essays explore the question of the utility and the limits of conceptions of modernism that apply Western theories of development to non Western cultures Warning against the dominant tendency in recent historiographies of non Western societies to define these predominantly in relation to Western thought the authors show the extent to which indigenous traditions have been overlooked The key question is how the triad of industrialization modernization and the historicization process which was decisive in the development of modern academic historiography also is valid beyond Europe Illustrating just how deeply suffused history writing is with European models the book offers a broad theoretical platform for exploring the value and necessity of a world historiography beyond Eurocentrism

British Foreign Policy 1874-1914 Sneh Mahajan, 2003-08-27 A challenging analysis of British Foreign Policy is provided at a time when Britain possessed the biggest Empire that humankind has ever known In this Empire India had a unique position comprising 97 per cent of Britain's Asiatic Empire All British statesmen deemed it essential to maintain their hold over India whatever the risk or cost of doing so This work focuses on aspects that have been hitherto marginalized It also contributes to debates surrounding the origins of the First World War the multipolar diplomacy of the late nineteenth century and the nature of imperial connections

Racial Crossings Damon Ieremia Salesa, 2011-05-19 The Victorians were fascinated with intersections between different races Whether in sexual or domestic partnerships in interracial children racially diverse communities or societies these racial crossings were a lasting Victorian concern But in an era of imperial expansion when slavery was abolished colonial wars were fought and Britain itself was reformed these concerns were more than academic In both the British empire and imperial Britain racial crossings shaped what people thought about race the future the past and the conduct and possibilities of empire Victorian fears of miscegenation and degeneration are well known this study turns to apparently opposite ideas where racial crossing was seen as a means of improvement a way of creating new societies or a mode for furthering the rule of law and the kingdom of Heaven Salesa explores how and why the preoccupation with racial crossings came to be so important so varied and so widely shared through the writings and experiences of a raft of

participants from Victorian politicians and writers to philanthropists and scientists to those at the razor s edge of empire from soldiers missionaries and settlers to natives half castes and other colonized people Anchored in the striking history of colonial New Zealand where the colonial policy of racial amalgamation sought to incorporate and intermarry settlers and New Zealand Maori *Racial Crossings* examines colonial encounters working closely with indigenous ideas and experiences to put Victorian racial practice and thought into sharp critical relief
