The Evolution of Time: Studies of Time in Science, Anthropology, Theology Argyris Nicolaidis, Wolfgang Achtner, 2013-05-27 Time a fundamental component of human thought and experience is quite enigmatic and elusive when it comes to defining it In The Evolution of Time Studies of Time in Science Anthropology Theology scholars from the fields of physics mathematics biology neuroscience psychology philosophy and theology draw from their own field of knowledge and expertise and present their understanding of the time phenomenon Time as a dynamic interplay of being and becoming the different temporalities we encounter in nature the human dimension of time are all important issues presented and thoroughly analyzed in the e book The e book has a manifest trans disciplinary character and it is a suitable for readers interested in evolution the dynamics of time and the complexity of our own conceptions of time

The Origins of Yoga and Tantra Geoffrey Samuel, 2008-03-27 Yoga tantra and other forms of Asian meditation are practised in modernized forms throughout the world today but most introductions to Hinduism or Buddhism tell only part of the story of how they developed This book is an interpretation of the history of Indic religions up to around 1200 CE with particular focus on the development of yogic and tantric traditions It assesses how much we really

know about this period and asks what sense we can make of the evolution of yogic and tantric practices which were to become such central and important features of the Indic religious scene Its originality lies in seeking to understand these traditions in terms of the total social and religious context of South Asian society during this period including the religious practices of the general population with their close engagement with family gender economic life and other pragmatic concerns
