Studies in the New Experimental Aesthetics: Steps Toward an Objective Psychology of Aesthetic Appreciation D. E. Berlyne, 1974 Studies in the New Experimental Aesthetics Daniel E. Berlyne, 1997 *Studies in the New Experimental Aesthetics* Richard W. Brislin, 1974 Studies in the new experimental aesthetics , 1974 **The New Yearbook for Phenomenology and Phenomenological Philosophy** Burt C. Hopkins, Daniele De Santis, 2023-10-31 Volume XXI Special Issue 2023 Part 1 Phenomenological Perspectives on Aesthetics and Art Part 2 Heidegger and Contemporary French Philosophy Aim and Scope The New Yearbook for Phenomenology and Phenomenological Philosophy provides an annual international forum for phenomenological research in the spirit of Husserl's groundbreaking work and the extension of this work by such figures as Reinach Scheler Stein Heidegger Sartre Levinas Merleau Ponty and Gadamer Contributors Liliana Albertazzi Dimitris Apostolopoulos Gabriele Baratelli Anna Irene Baka Irene Breuer John Brough Peer Bundgaard Justin Clemens Richard Colledge Bryan Cooke Françoise Dastur Ivo De Gennaro Natalie Depraz Helena De Preester Daniele De Santis Madalina Diaconu Arto Haapala Robyn Horner Erik Kuravsky Donald Landes Elisa Magri Michelle Maiese Regina Nino Mion Brian O'Connor Costas Pagondiotis Knox Peden Constantinos Picolas Hans Reiner Sepp Jack Reynolds Jon Roffe Claude Romano Maxine Sheets Johnstone Michela Summa Panos Theodorou Fotini Vassiliou and Sanem Yazicioglu Submissions Manuscripts prepared for blind review should be submitted to the Editors burt.crowell@hopkins.univ.lille3.fr and daniel.desantis@ff.cuni.cz electronically via e-mail attachments **Exploring the Psychology of Interest** Paul J. Silvia, 2006-04-13 Interest is basic to an understanding of human motivation and behaviour This text examines why some things interest us or provoke our curiosity *Different Psychological Perspectives on Cognitive Processes* Rossana Actis-Grosso, Alessandra Galmonte, 2015-02-27 This book highlights some of the main lines of research in cognitive psychology in the Alps Adria region which being geographically located in the centre of the European continent encompasses eleven regions from six different countries namely Austria Croatia Hungary Italy Serbia and Slovenia The reason for bringing together authors from different geographical areas and with different approaches to the broad discipline defined as Cognitive Science is detailed in the first section of this book which outlines a brief history of psychology in each country in the region and provides an overview of the spirit that characterizes the Alps Adria working community The Alps Adria Rector Conference believes that harmonious coexistence and efficient collaboration of the peoples and communities of the different regions constitute the characteristics and specificities of the present cultural landscape of the Alps Adria region in Europe It is in this spirit that this book has been edited underscoring the concept of unity in diversity that has characterized the Alps Adriatic community Furthermore such unity is now a necessary attribute for science where interdisciplinarity is both highly encouraged and increasingly accepted The second and third sections of the book are devoted to situating this interdisciplinarity in the framework of cognitive science As such this book will serve as a basis for fruitful exchange not only inside the community but also beyond both

geographical and theoretical borders

Emerging Visions of the Aesthetic Process Gerald C. Cupchik, Janos

László, 1992-09-25 *Emerging Visions of the Aesthetic Process* explores the processes underlying aesthetics and play from the perspectives of psychologists, philosophers, and semiologists. It reveals the different ways in which scholars think about the following questions: 1. What is the origin of the creative process? 2. How do biological, social, and cognitive processes shape the activities of artists and the responses of viewers? 3. How does literary activity draw on our experiences of everyday life and how is it tied to other kinds of media? 4. How does play affect the process of growth from childhood to adulthood? The contributors consider artistic, literary, and play activity from its most biological roots through individual cognitive and emotional processing to its expression at the social level. *Emerging Visions of the Aesthetic Process* offers a stimulating basis for the discussion of aesthetic processes and will serve as an integrative, comprehensive treatise on the topic for researchers and students.

Handbook of Music and Emotion

Patrik N. Juslin, John Sloboda, 2011-03-17 A successor to the acclaimed *Music and Emotion: The Handbook of Music and Emotion* provides comprehensive coverage of the field in all its breadth and depth. As well as summarizing what is currently known about music and emotion, it will also stimulate further research in promising directions that have been little studied.

The Role of Interest in Learning and Development

K. Ann Renninger, Suzanne Hidi, Andreas Krapp, Ann Renninger, 2014-02-04 Interest is just emerging as a critical bridge between cognitive and affective issues in both learning and development. This developing interest in interest appears to be linked to an increasing concern for studying the individual in context, examining affective variables as opposed to purely structural features of text, analyzing the interrelationship of cognitive and social development, understanding practical applications of theories of motivation, and recognizing the importance of developmental psychology for the study of learning. This book addresses both how individual interest and interest inherent in stimuli (books, text, toys, etc.) across subjects affect cognitive performance. While the book's particular emphasis is on theory-driven research, each of the contributing authors offers a unique perspective on understanding interest and its effects on learning and development. As such, each has contributed a chapter in which particular questions in interest research are described and linked to a clearly stated theoretical perspective and recent findings. Relevant material from the broader literatures of psychology and education are analyzed in the context of these discussions. In addition, the introductory and concluding chapters build on the contributions to the volume by providing the basis of a coherent view of interest across genres such as stories and expository text and domains as varied as play, reading, and mathematics.
