Studies Voltaire 18th Century Volume 319:

Studies on Voltaire and the Eighteenth Century, 1994 **New Essays on the Political Thought of the Huguenots of the Refuge** John Christian Laursen, 1995 After the Revocation of the Edict of Nantes in 1685 the Huguenot refugees who spread throughout Protestant Europe contributed greatly to the development of new political ideas and realities ranging from the theory and practice of freedom of the press through religious toleration and early modern economic discourse The essays in this volume throw new light on their work **The Berlin Refuge, 1680-1780** Sandra Pott, Sandra Richter, Martin Mulsow, Lutz Danneberg, 2003-01-01 The intellectual Huguenot Refuge is one of the most important movements in Early modern Europe This volume provides new information about one of its centres about Berlin and on the extremely important role Huguenot scholars played disseminating Enlightened thought **A History of Police and Masculinities, 1700-2010** David Barrie, Susan Broomhall, 2012-07-26 This unique collection brings together leading international scholars to explore how ideologies about masculinities have shaped police culture policy and institutional organization from the eighteenth century to the present day It addresses an under researched area of historical inquiry providing the first in depth study of how gender ideologies have shaped law enforcement and civic governance under old and new police models tracing links continuities and changes between them The book opens up scholarly understanding of the ways in which policing reflected sustained embodied and enforced ideas of masculinities in historic and modern contexts as well as how conceptions of masculinities were and continue to be interpreted through representations of the police in various forms of print and popular culture The research covers the UK Europe Australia and America and explores police typologies in different international and institutional contexts using varied approaches sources and interpretive frameworks drawn from historical and criminological traditions This book will be essential reading for academics students and those interested in gender culture police and criminal justice history as well as police practitioners **Early French and German Defenses of Freedom of the Press**, 2003-06-01 This volume contains English translations of two important early French and German defences of freedom of the press Almost unknown in the English speaking world these texts demonstrate that freedom of the press was an important issue in other parts of Europe in the early modern period giving rise to articulate theories Elie Luzac's Essay on Freedom of Expression 1749 defended freedom of the press for atheists on natural law and other grounds Carl Friedrich Bahrdt's On Freedom of the Press and its Limits 1787 drew on natural law religious rhetoric and political journalism to make the case for understanding freedom of the press as a human right Together these texts show that the French and German traditions included their own intellectual resources for defending modern rights before the American Bill of Rights and the French Declaration of the Rights of Man **The Autocritique of Enlightenment** Mark Hulliung, 2017-09-29 Of all the critiques of the Enlightenment the most telling may be found in the life and writings of Jean Jacques Rousseau This searching long overlooked auto critique receives its first full treatment by Mark Hulliung Here he restores Rousseau to his

historical context the world of the philosophes and shows how he employed the arsenal of Voltaire Diderot and others to launch a powerful attack on their version of the Enlightenment With great intellectual skill and rhetorical force Rousseau exposed the inconsistencies and shortcomings of the Enlightenment the psychology of Locke the genre of philosophical and conjectural history the latest applications of science to the study of society and politics and the growing interest in materialist modes of thought As the century moved on Hulliung shows the most advanced philosophes found themselves drawn to conclusions that paralleled Rousseau s an agreement that went unacknowledged at the time The Enlightenment that emerges here is richer more nuanced and more self critical than the one reflected in many interpretations By extracting Rousseau from personal entangle ments that stymied debate in his time and that mislead critics to this day Hulliung reveals the remarkable and remarkably unacknowledged force of Rousseau s accomplishment This edition includes a brilliant new introduction by the author *The Dictionary of Seventeenth and Eighteenth-century Dutch Philosophers* ,2003

Scepticism in the Enlightenment R.H. Popkin,Ezequiel de Olaso,Giorgio Tonelli,2013-04-17 Starting with Richard Popkin s essay of 1963 Scepticism in the Enlightenment a new investigation into philosophical scepticism of the period was launched The late Giorgio Tonelli and the late Ezequiel de Olaso examined in great detail the kinds of scepticism developed during the Enlightenment and the kind of answer to scepticism that was developed by Leibniz Their original researches and interpretations are of great value and importance As a result of their work Popkin modified his original claims as shown in the last two articles in this volume The book contains an introduction by Popkin and 10 essays two of which have never been published before This collection should be of interest to students and scholars of 18th century thought in England France and Germany **The High Road to Pyrrhonism** Richard Henry Popkin,1993-01-01 In this sequel to his classic study *The History of Scepticism from Erasmus to Descartes* Popkin examines the important role played by the revival and reformulation of classical scepticism in eighteenth century philosophy Shamanism and the Eighteenth Century Gloria Flaherty,2014-07-14 Pursuing special experiences that take them to the brink of permanent madness or death men and women in every age have returned to heal and comfort their fellow human beings and these shamans have fascinated students of society from Herodotus to Mircea Eliade Gloria Flaherty s book is about the first Western encounters with shamanic peoples and practices Flaherty makes us see the eighteenth century as an age in which explorers were fascinating all Europe with tales of shamans who accomplished a self induced cure for a self induced fit Reports from what must have seemed a forbidden world of strange rites and moral licentiousness came from botanists geographers missionaries and other travelers of the period and these accounts created such a stir that they permeated caf talk journal articles and learned debates giving rise to plays encyclopedia articles art and operas about shamanism The first part of the book describes in rich detail how information about shamanism entered the intellectual mainstream of the eighteenth century In the second part Flaherty analyzes the artistic and critical implications of that process In so doing she offers remarkable chapters on Diderot

Herder Goethe and the cult of the genius of Mozart as well as a chapter devoted to a new reading of Goethe's Faust that views Faust as the modern shaman Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
