Studies Voltaire 18th Century Volume 361:

Measure of the Earth Larrie D. Ferreiro, 2011-05-31 Describes the early 18th century expedition of scientists sent by France and Spain to colonial Peru to measure the degree of equatorial latitude which could resolve the debate between whether the earth was spherical or flattened at the poles *Studies in Burke and His Time*, 1976 **A Critical History of French Children's Literature** Penelope E. Brown, 2008-03-25 These books are the first full length comprehensive study written in English of French children's literature They provide both an overview of developments from the seventeenth century to the present day and detailed discussion of texts that are representative innovative or influential best sellers in their own time and beyond French children's literature is little known in the English speaking world and apart from a small number of writers and texts has been relatively neglected in scholarly studies despite the prominence of the study of children's literature as a discipline This project is groundbreaking in its coverage of a wide range of genres tracing the evolution of children's books in France from early courtesy books fables and fairy tales to eighteenth century moral tales and educational drama nineteenth century novels of domestic realism and adventure stories and contemporary detective fiction and fantasy novels The discussion traces the relationship between children's literature and social change revealing the extent to which children's books were informed by pedagogical moral religious and political agenda and explores the implications of the dual imperatives of instruction and amusement which have underpinned writing for young readers throughout the centuries *The Eighteenth Century*, 1974 *Nature and Culture* Lester G. Crocker, 2019-12-01 Originally published in 1963 Perhaps the most generative ethical question of eighteenth century France was how to live a virtuous and happy life at the same time During the Age of Enlightenment Christianity fell out of vogue as the dominant and authoritative moral code In place of Christianity's emphasis on sin and redemption in light of a supposed afterlife present happiness became recognized as an appropriate end goal among French Enlightenment thinkers French intellectuals struggled to find equilibrium between nature a person's individual goals and needs and culture the political economic and social organization of humans for a collective good Enlightenment discourse generated a unique cultural moment in which thinkers addressed the problems of humans moral coexistence through the dichotomy of nature and culture Lester Crocker addresses these questions in an overview of ethical thought in eighteenth century France **Thomas Paine** Gregory Claeys, 2020-09-23 This book investigates Thomas Paine's social and political thought in both its British and American moments It examines the ways in which Paine's ideas were understood The book restores him to the position his contemporaries accorded him that of an important writer on politics and society **Thomas Paine: Soc & Pol Thought** Gregory Claeys, 2002-09-11 First published in 1989 Routledge is an imprint of Taylor Francis an informa company **Imagining Shakespeare's Original Audience, 1660-2000** Bettina Boecker, 2016-04-29 Comparatively little is known about Shakespeare's first audiences This study argues that the Elizabethan audience is an essential part of Shakespeare as a site of cultural meaning and that the way criticism

thinks of early modern theatregoers is directly related to the way it thinks of and uses the Bard himself *The Emergence of Civil Society in the Eighteenth Century* Marvin B. Becker, 1994 Although there were differences in the ways their societies were transformed eighteenth century England and Scotland provide the clearest expression of the newly emerged civil society *The Extraterrestrial Life Debate 1750-1900* Michael J. Crowe, 1986 This is the first in depth study in English of the international debate that developed between 1750 and 1900 concerning the question of the existence of extraterrestrial intelligent life Taking a history of ideas approach the author describes the controversies that arose over this question and reveals the great extent to which this issue influenced astronomical philosophical and religious thought Professor Crowe shows that the majority of the leading astronomers of the last two centuries participated in this debate and he analyzes how their views interacted with new developments such as Newtonian mechanics stellar astronomy Darwinian theory and astrophysics This fascinating and critical history shows that the longstanding and widespread belief in extraterrestrial life has for centuries acted to alter major areas of our intellectual life
