Studies in Postimpressionism John Rewald, 1986-04-15 Discusses the works of Degas Seurat and Odilon Redon the Fauve movement Van Gogh's posthumous reputation and Gauguin's correspondence with fellow artists **Critical Readings in Impressionism and Post-Impressionism** Mary Tompkins Lewis, 2023-12-22 The essays in this wide ranging beautifully illustrated volume capture the theoretical range and scholarly rigor of recent criticism that has fundamentally transformed the study of French Impressionist and Post Impressionist art Readers are invited to consider the profound issues and penetrating questions that lie beneath this perennially popular body of work as the contributors examine the art world of late nineteenth century France including detailed looks at Monet Manet Pissarro Degas C zanne Morisot Seurat Van Gogh and Gauguin The authors offer fascinating new perspectives placing the artworks from this period in wider social and historical contexts They explore these painters pictorial and market strategies the critical reception and modern criteria the paintings engendered and the movement's historic role in the formation of an avant garde tradition Their research reflects the wealth of new documents critical approaches and scholarly exhibitions that have fundamentally altered our understanding of Impressionism and Post Impressionism These essays several of which have previously been familiar only to scholars provide instructive models of in depth critical analysis and of the competing art historical methods that have crucially reshaped the field Contributors Carol Armstrong T J Clark Stephen F Eisenman Tamar Garb Nicholas Green Robert L Herbert John House Mary Tompkins Lewis Michel Melot Linda Nochlin Richard Shiff Debora Silverman Paul Tucker Martha Ward **Studies in Anglo-French Cultural Relations** Ceri Crossley, 1988-06-18 **Serendipity in Rhetoric, Writing, and Literacy Research** Maureen Daly Goggin, Peter N. Goggin, 2018-04-01 In the course of research most scholars have known moments of surprise catastrophe or good fortune though they seldom refer to these occurrences in reports or discuss them with students Serendipity in Rhetoric Writing and Literacy Research reveals the different kinds of work scholars particularly those in rhetoric writing and literacy need to do in order to recognize a serendipitous discovery or a missed opportunity In published scholarship and research the path toward discovery seems clean and direct The dead ends backtrackings start overs and stumbles that occur throughout the research process are elided and seems that the researchers started at point A and arrived safely and neatly at point B without incident as if by magic The path however is never truly clear and straight Research and writing is messy Serendipity in Rhetoric Writing and Literacy Research features chapters from twenty three writing scholars who have experienced moments of serendipity in their own work not by magic or pure chance but through openness and active waiting which offer an opportunity to prepare the mind Serendipity in Rhetoric Writing and Literacy Research illustrates the reality of doing research there is no reliable prescription or one size fits all manual but success can be found with focused dedication and an open mind Contributors Ellen Barton Zachary C Beare Lynn Z Bloom Jennifer Clary Lemon Caren Wakerman Converse Gale Coskan Johnson Kim Donehower Bill Endres Shirley E

Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes **Educational Philosophy and Post-Apocalyptic Survival** Michael A. Whilst Impressionism marked the first steps toward modern painting by revolutionising an artistic medium stifled by academic conventions Post Impressionism even more revolutionary completely liberated colour and opened it to new unknown horizons Anchored in his epoch relying on the new chromatic studies of Michel Eug ne Chevreul Georges Seurat transcribed the chemist s theory of colours into tiny points that created an entire image With his heavy strokes Van Gogh illustrated the midday sun whilst C zanne renounced perspective Rich in its variety and in the singularity of its artists Post Impressionism was a passage taken by all the well known figures of 20th century painting it is here presented for the great pleasure of the reader by Nathalia Brodskai a Literature and the Politics of Post-Victorian Decadence Kristin Mahoney,2015-06-09 In *Literature and the Politics of Post Victorian Decadence* Kristin Mahoney argues that the early twentieth century was a period in which the specters of the fin de si cle exercised a remarkable draw on the modern cultural imagination and troubled emergent avant gardistes These authors and artists refused to assimilate to the aesthetic and

political ethos of the era representing themselves instead as time travelers from the previous century for whom twentieth century modernity was both baffling and disappointing However they did not turn entirely from the modern moment but rather relied on decadent strategies to participate in conversations concerning the most highly vexed issues of the period including war the rise of the Labour Party the question of women s sexual freedom and changing conceptions of sexual and gender identities
