Studies Voltaire 18th Century Volume 252:

Equiano and Anti-slavery in Eighteenth-century Belfast Nini Rodgers, 2000 The celebrated freed slave Olaudah Equiano visited Ireland in 1791 and was welcomed particularly in Belfast Long standing radical rhetoric about the political slavery of Ireland was now and in the context of the Rights of Man applied specifically to oppressed peoples whether black or Catholic And yet Belfast's commercial and industrial advance a major trigger of radical self assertion was intimately linked to trade and connections with the slave economies of the West Indies Nini Rodgers with her wide ranging interest in the history of slavery and its role in the Atlantic economy is well equipped to move beyond the black and white simplicities of a purely parochial portrayal of Belfast's role in slavery issues

Scottish Philosophy in the Eighteenth Century, Volume I Aaron Garrett, James A. Harris, 2015-03-05 A History of Scottish Philosophy is a series of collaborative studies by expert authors each volume being devoted to a specific period Together they provide a comprehensive account of the Scottish philosophical tradition from the centuries that laid the foundation of the remarkable burst of intellectual fertility known as the Scottish Enlightenment through the Victorian age and beyond when it continued to exercise powerful intellectual influence at home and abroad The books aim to be historically informative while at the same time serving to renew philosophical interest in the problems with which the Scottish philosophers grappled and in the solutions they proposed This new history of Scottish philosophy will include two volumes that focus on the Scottish Enlightenment In this volume a team of leading experts explore the ideas intellectual context and influence of Hutcheson Hume Smith Reid and many other thinkers frame old issues in fresh ways and introduce new topics and questions into debates about the philosophy of this remarkable period The contributors explore the distinctively Scottish context of this philosophical flourishing and juxtapose the work of canonical philosophers with contemporaries now very seldom read The outcome is a broadening out and a filling in of the detail of the picture of the philosophical scene of Scotland in the eighteenth century General Editor Gordon Graham Princeton Theological Seminary

On Crimes and Punishments and Other Writings Cesare Beccaria, 2009-05-05 Published in 1764 *On Crimes and Punishments* by Cesare Beccaria 1738 1794 courted both success and controversy in Europe and North America Enlightenment luminaries and enlightened monarchs alike lauded the text and looked to it for ideas that might help guide the various reform projects of the day The equality of every citizen before the law the right to a fair trial the abolition of the death penalty the elimination of the use of torture in criminal interrogations these are but a few of the vital arguments articulated by Beccaria This volume offers a new English translation of *On Crimes and Punishment* alongside writings by a number of Beccaria's contemporaries Of particular interest is Voltaire's commentary on the text which is included in its entirety The supplementary materials testify not only to the power and significance of Beccaria's ideas but to the controversial reception of his book At the same time that philosophes proclaimed that it contained principles of enduring importance to any society grappling with matters of political

and criminal justice allies of the ancien régime roundly denounced it fearing that the book's attack on feudal privileges and its call to separate law from religion and thus crime from sin would undermine their longstanding privileges and powers. Long appreciated as a foundational text in criminology, Beccaria's arguments have become central in debates over capital punishment. This new edition presents Beccaria's *On Crimes and Punishments* as an important and influential work of Enlightenment political theory. *A Critical Bibliography of French Literature V4 18th C Supplement* Richard A. Ancient Astronomical Observations and the Study of the Moon's Motion (1691-1757) John M. Steele, 2012-02-17 The discovery of a gradual acceleration in the moon's mean motion by Edmond Halley in the last decade of the seventeenth century led to a revival of interest in reports of astronomical observations from antiquity. These observations provided the only means to study the moon's secular acceleration as this newly discovered acceleration became known. This book contains the first detailed study of the use of ancient and medieval astronomical observations in order to investigate the moon's secular acceleration from its discovery by Halley to the establishment of the magnitude of the acceleration by Richard Dunthorne, Tobias Mayer and Jérôme Lalande in the 1740s and 1750s. Making extensive use of previously unstudied manuscripts, this work shows how different astronomers used the same small body of preserved ancient observations in different ways in their work on the secular acceleration. In addition, this work looks at the wider context of the study of the moon's secular acceleration, including its use in debates of biblical chronology, whether the heavens were made up of ether, and the use of astronomy in determining geographical longitude. It also discusses wider issues of the perceptions and knowledge of ancient and medieval astronomy in the early modern period. This book will be of interest to historians of astronomy, astronomers, and historians of the ancient world. *Studies in the Eighteenth Century III* R.F. Brissenden, J.C.

Eade, 1976-12-15 This volume of essays from the Third David Nichol Smith Memorial Seminar continues the valuable and lively tradition established in the two earlier seminars and volumes. The essays by distinguished international scholars range over many of the topics that make the eighteenth century a rich area of study: the burgeoning of ideas about man and his place in the world, social history, philosophy and literature, literary criticism and traditions, the poetry and prose of the giants of the age. For all students of eighteenth century studies, this book will be vital reading. **Human Nature, Cultural**

Diversity, and the French Enlightenment Henry Vyverberg, 1989-08-17 In this work Henry Vyverberg traces the evolution and consequences of a crucial idea in French Enlightenment thought: the idea of human nature. Human nature was commonly seen as a broadly universal, unchanging entity, though perhaps modifiable by geographical, social, and historical factors. Enlightenment empiricism suggested a degree of cultural diversity that has often been underestimated in studies of the age. Evidence here is drawn from Diderot's celebrated *Encyclopedia* and from a vast range of writing by such Enlightenment notables as Voltaire, Rousseau, and d'Holbach. Vyverberg explains not only the age's undoubted fascination with uniformity in human nature but also its acknowledgment of significant limitations on that uniformity. He shows that although the

Enlightenment's historical sense was often blinkered by its notions of a uniform human nature there were also cracks in this concept that developed during the Enlightenment itself Comparative Criticism: Volume 9, Cultural Perceptions and Literary Values E. S. Shaffer, 1987-10-29 The ninth volume of this annual journal continues the consideration of the relations of European with non European literatures begun in volume 8 It brings the series of special bibliographies on the history of comparative literary studies in the UK up to 1965 and contains the annual bibliography of comparative literature covering 1984 *The Correspondence of Adam Ferguson Vol 1* Vincenzo Merolle, Jane B Fagg, 2024-10-28 This Pickering edition of Adam Ferguson's correspondence contains over 400 letters most of which have never before been published The correspondence includes letters between Ferguson and Adam Smith David Hume and Alexander Carlyle and many other central figures of the Scottish Enlightenment
