Measuring Diets and Food Choice in the Context of a Changing World Winnie Bell, Christine Blake, Shauna Downs, 2025-08-06 Historically research in low and middle income countries has been focused on what people consume with less attention to how and why people choose to consume the foods that they do As incomes rise and local food environments undergo rapid changes providing consumers with a wider array of options at competitive prices understanding the underlying drivers of food choice including the preferences and values that underpin them has become increasingly important In recent years there have been renewed efforts to understand the drivers of food choice in the context of changing food environments and broader food system and how these drivers link with food consumption The goal of this Research Topic is to look beyond dietary consumption what people eat by considering more holistically the various drivers of food choice how and why people eat the foods they do to better understand what underpins individual decisions Ultimately by understanding why people make the choices they do especially when situated in the local food environment and or broader food system we can identify important entry points for behavior change interventions develop a better understanding about the role of food safety in food choice decisions improve the environment climate and food systems through improved knowledge on the drivers of food choice and learn about how changing livelihoods shifts dynamics related to food choice amongst other important research tied to drivers of food choice

Americans All Diana Selig, 2008 From the 1920s ea decade marked by racism and nativism ethrough World War II hundreds of thousands of Americans took part in a vibrant campaign to overcome racial ethnic and religious prejudices They celebrated the eoecultural gifts e that immigrant and minority groups brought to society learning that ethnic identity could be compatible with American ideals Diana Selig tells the neglected story of the cultural gifts movement which flourished between the world wars Progressive activists encouraged pluralism in homes schools and churches across the country Countering racist trends and the melting

pot theory of Americanization they championed the idea of diversity They incorporated new thinking about child development race and culture into grassroots programs yet they were unable to address the entrenched forms of discrimination and disfranchisement faced by African Americans in particular This failure to grasp the deep social and economic roots of prejudice ultimately limited the movement's power In depicting a vision for an inclusive American identity from a diverse citizenry *Americans All* is a timely reminder of the debates over difference and unity that remain at the heart of American society
