Superpsych The Power Of Hypnosis:

Superpsych Timothy Hall, Guy Grant, 1976 In a dazzling tapestry of invented voices of family friends employees rivals the meteoric trajectories of the lives and careers of Vic Fountain and Ziggy Bliss are brilliantly captured in this remarkable comic oral history Before they meet Sigmund Blissman and Victor Fontana were going nowhere fast One a comedian the other a band singer they struggle to establish themselves as performers And one night as both of them fail miserably in mid performance the now named Ziggy Bliss appears unexpectedly onstage with Vic Fountain and comedy history is born Soon they are the undisputed funniest men in America their performance is described as table tennis on a comet But their professional success doesn't spill over into their personal lives The two men fight bickering with their managers their wives their children and their mistresses each driving himself away from the one person most responsible for his success the other FUNNYMEN is a tour de force a nostalgic penetrating look at the unlikely relationship between two entertainers whose combined success is far greater than anything they could have achieved on their own

The Paranormal and the Politics of Truth Jeremy Northcote, 2013-04-30 This book is based on the author's ten year research into the politics of belief surrounding paranormal ideas Through a detailed examination of the participants issues strategies and underlying factors that constitute the contemporary paranormal debate the book explores the struggle surrounding the status of paranormal phenomena It examines on the one hand how the principal arbiters of religious and scientific truths the Church and the academic establishment reject paranormal ideas as occult and pseudo scientific and how on the other hand paranormal enthusiasts attempt to resist such labels and instead establish paranormal ideas as legitimate knowledge The author contends that the

paranormal debate is the outcome of wider discursive processes that are concerned with the construction and negotiation of truth in Western society generally More specifically the debate is seen as an aspect of the boundary work that defines the contours of religious and scientific orthodoxy The book paves new ground in understanding the nature of belief relating to a topic that has long held fascination to academics and lay people alike paranormal ideas It develops a discursive framework for understanding a contemporary social phenomenon hence placing the study at the cutting edge of ethnographic development that seeks to integrate discursive perspectives with empirical accounts of sociological phenomena Most importantly the study is intended to contribute to the debate surrounding communicative action by outlining a discursive perspective on the negotiation of ideational differences that goes beyond the incommensurability theories that have dominated the sociology of communication and knowledge North Carolina Journal of Mental Health ,1988 Subject Catalog Library of Congress,1978 Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 **Subject Catalog, 1978** Library of Congress,1978 **Library of Congress Catalogs** Library of Congress,1980 **The Medical Journal of Australia** ,1977 *British Medicine* ,1978 Monthly Lists of new books pamphlets official publications brochures reports and journal articles in medicine and allied fields Also includes forthcoming congresses to be held in Britain and the Commonwealth No index
