Supporting Literacy A Guide For Primary Classroom Assistants:

Supporting Literacy Kate Grant, 2002-01-22 Classroom assistants are increasingly relied upon to support the most needy pupils and they have had significantly less training than their colleagues with qualified teacher status. It is clear that these assistants need some very practical materials. This book provides photocopiable resources so that classroom assistants can get to work. The book covers all they need to know about literacy: it explains in very simple terms what is expected from them and how the National Literacy Strategy works; how to support reading, writing and spelling; how to select fiction and non-fiction; how to help children use computers. It also covers issues such as how to help children for whom English is not their first language; how to help children with special needs; how to set targets and monitor progress. As well as providing an invaluable manual for assistants, *Supporting Literacy* will be useful for SENCOs and English Co-ordinators who are training support staff and volunteers in primary schools. Learning Support Assistants and others following recognised courses eg Specialist Teacher's Assistants will find the book helpful in the study of children's literacy.
