Supreme Court Law Discretion:

Discretion, Discrimination and the Rule of Law Mrinal Satish, 2017 Aims to analyse whether unwarranted disparity existed in rape sentencing in India which anecdotal work of other scholars had pointed to Provided by publisher Values in the Supreme Court Rachel Cahill-O'Callaghan, 2020-02-20 This book examines the significance of values in Supreme Court decision making Drawing on theories and techniques from psychology it focuses on the content analysis of judgments and uses a novel methodology to reveal the values that underpin decision making The book centres on cases which divide judicial opinion Dworkin's hard cases in which the result is not clearly dictated by statute or precedent In hard cases there is real uncertainty about the legal rules that should be applied and factors beyond traditional legal sources may influence the decision making process It is in these uncertain cases where legal developments can rest on a single judicial decision that values are revealed in the judgments The findings in this book have significant implications for developments in law judicial decision making and the appointment of the judiciary
