Supreme Court of Appeals,William Munford,1816 **Freedom of Speech** David L. Hudson Jr.,2017-05-05 Detailed yet highly readable this book explores essential and illuminating primary source documents that provide insights into the history development and current conceptions of the First Amendment to the Constitution The freedom to speak one s mind is a subject of great importance to most Americans but especially to students minorities and those who are socially or economically disadvantaged individuals whose voices have historically been censored or marginalized in American society Documents Decoded Freedom of Speech offers accessible student friendly explanations of specific developments in freedom of speech in the United States and carefully excerpted primary documents making it an indispensable resource for educators seeking to teach the First Amendment and for students wanting to learn more about important free speech decisions The chronologically ordered documents explore topics typically covered in American history and government curricula addressing such contemporary issues as the regulation of online speech flag desecration parody public school student speech and the Supreme Court s recent decisions on the issue of corporate speech rights *When Government Speaks* Mark G. Yudof,2009-04-03 Government s ever increasing participation in communication processes Mark Yudof argues threatens key democratic values that the First Amendment was designed to protect Government control over the exchange of ideas and information would be inconsistent with citizen autonomy informed consent and a balanced and mutually responsive relationship between citizens and their government Yet the danger of government dominance must be weighed against the necessary role of government in furthering democratic values by proposing and promotion policies and by disseminating information and educating citizens Restraints on government s ability to control communications processes are desirable but excessive or inappropriate restrictions threaten democracy Professor Yudof identifies a number of formal and informal checks on government as disseminator withholder and controller of ideas and information Where more controls are needed the strengthening of pluralism and legislative oversight is generally the answer Constitutional redress in the courts should be sought only in extreme instances he cautions to avoid judicial interference with legitimate policy objectives
