Supreme Initiation An Empirical Spiritual Science For The Supreme Truth:

Supreme Initiation Shōkō Asahara,1988 **Supreme Initiation** Shōkō Asahara,1988 **Controversial New Religions** James R. Lewis,Jesper Aa. Petersen,2014-07-16 In terms of public opinion new religious movements are considered controversial for a variety of reasons Their social organization often runs counter to popular expectations by experimenting with communal living alternative leadership roles unusual economic dispositions and new political and ethical values As a result the general public views new religions with a mixture of curiosity amusement and anxiety sustained by lavish media emphasis on oddness and tragedy rather than familiarity and lived experience This updated and revised second edition of Controversial New Religions offers a scholarly dispassionate look at those groups that have generated the most attention including some very well known classical groups like The Family Unification Church Scientology and Jim Jones s People s Temple some relative newcomers such as the Kabbalah Centre the Order of the Solar Temple Branch Davidians Heaven s Gate and the Falun Gong and some interesting cases like contemporary Satanism the Raelians Black nationalism and various Pagan groups Each essay combines an overview of the history and beliefs of each organization or movement with original and insightful analysis By presenting decades of scholarly work on new religious movements written in an accessible form by established scholars as well as younger experts in the field this book will be an invaluable resource for all those who seek a view of new religions that is deeper than what can be found in sensationalistic media stories Handbook of Religion and the Authority of Science Jim R. Lewis,Olav Hammer,2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world Global Rebellion Mark Juergensmeyer,2008-05-16 Why has the turn of the twenty first century been rocked by a new religious rebellion From al Qaeda to Christian militias to insurgents in Iraq a strident new religious activism has seized the imaginations of political rebels around the world Building on his groundbreaking book The New Cold War Religious Nationalism Confronts the Secular State Mark Juergensmeyer here provides an up to date road map through this complex new religious terrain Basing his discussion on interviews with militant activists and case studies of rebellious movements Juergensmeyer puts a human face on conflicts that have become increasingly abstract He revises our notions of religious revolution and offers positive proposals for responding to religious

activism in ways that will diminish the violence and lead to an accommodation between radical religion and the secular world

Terror in the Mind of God Mark Juergensmeyer, 2003-09-01 Completely revised and updated this new edition of *Terror in the Mind of God* incorporates the events of September 11 2001 into Mark Juergensmeyer's landmark study of religious terrorism Juergensmeyer explores the 1993 World Trade Center explosion Hamas suicide bombings the Tokyo subway nerve gas attack and the killing of abortion clinic doctors in the United States His personal interviews with 1993 World Trade Center bomber Mahmud Abouhalima Christian Right activist Mike Bray Hamas leaders Sheik Yassin and Abdul Aziz Rantisi and Sikh political leader Simranjit Singh Mann among others take us into the mindset of those who perpetrate and support violence in the name of religion

The Mind of the Terrorist Jerrold M. Post, 2024-09-04 In contrast to the widely held assumption that terrorists are crazed fanatics Jerrold Post demonstrates they are psychologically normal and that hatred has been bred in the bone He reveals the powerful motivations that drive these ordinary people to such extraordinary evil by exploring the different types of terrorists from national separatists like the Irish Republican Army to social revolutionary terrorists like the Shining Path as well as religious extremists like al Qaeda and Aum Shinrikyo In *The Mind of the Terrorist* Post uses his expertise to explain how the terrorist mind works and how this information can help us to combat terrorism more effectively

Violence and New Religious Movements James R. Lewis, 2011-04-06 The relationship between new religious movements NRMs and violence has long been a topic of intense public interest an interest heavily fueled by multiple incidents of mass violence involving certain groups Some of these incidents have made international headlines When New Religious Movements make the news it's usually because of some violent episode Some of the most famous NRMs are known much more for the violent way they came to an end than for anything else *Violence and New Religious Movements* offers a comprehensive examination of violence by and against new religious movements The book begins with theoretical essays on the relationship between violence and NRMs and then moves on to examine particular groups There are essays on the Big Five the most well known cases of violent incidents involving NRMs Jonestown Waco Solar Temple the Aum Shinrikyo subway attack and the Heaven's Gate suicides But the book also provides a richer survey by examining a host of lesser known groups This volume is the culmination of decades of research by scholars of New Religious Movements
