Suburban Tokyo A Comparative Study In Politics And Social Change:

Suburban Tokyo Gary D. Allinson,1979 Ozu International Wayne Stein,Marc DiPaolo,2016-09-22 In Japan and much of Europe Ozu is widely considered to be one of the finest film directors who ever lived While Ozu has a strong reputation in the West his films are not as well known or widely appreciated in the U S as they are elsewhere A notable exception to this trend is film critic Roger Ebert who recently wrote that Ozu is one of his three or four favorite directors Also moving beyond the view that Tokyo Story is a masterful exception in the Ozu canon Ebert sees Ozu s films as nearly always of the same high quality Ozu International will reflect on Ebert s view of Ozu by arguing that this director deserves broader recognition in the U S and that his entire canon is worthy of serious study With the recent release of more than 15 Ozu DVDs in the Criterion Collection covering every phase of his career at least in part including silent films black and white talkies and color films Ozu International helps to fill a lingering gap in English language scholarship on Ozu by giving this new generation of scholars a book length forum to explore new critical perspectives on an unfairly neglected director Contributions include specialists in Japanese culture academics from a range of disciplines and professional films critics Housing and Planning References

United States. Department of Housing and Urban Development. Library,1981 **The Global City** Saskia Sassen,2025-09-09 In her classic book The Global City Saskia Sassen tells how New York London and Tokyo became command centers of the emerging global economy and in the process underwent massive and parallel changes The book reorients the way we think about how cities shape and are shaped by globalization and provides lessons for the future **Comparing Political Corruption and Clientelism** Junichi Kawata,2017-03-02 Past modernization literature has assumed that corruption and clientelism reflect a pre modern social structure and could be referred to as a pathologic phenomenon of the political system Very few have considered corruption and clientelism as structural products of an interwoven connection between capital accumulation bureaucratic rationalization interest intermediation and political participation from below This volume analyzes key aspects of the debate such as should corruption and clientelism be evaluated as a lubricant in terms of administrative efficiency legitimate demands from the margins of society to redress social and economic inequality or to readdress economic development What would be the effect of strengthening policing to control political corruption Could electoral reform or a decentralization of government power be a cure for all These questions among others are answered in this comprehensive volume Postwar Japan as History Andrew Gordon,1993-10-20 As they examine three related themes of postwar history the authors describe an ongoing historical process marked by unexpected changes such as Japan s extraordinary economic growth and unanticipated continuities such as the endurance of conservative rule From publisher s description

Institutions, Incentives and Electoral Participation in Japan Yusaku Horiuchi,2005-07-05 American and European political scientists have claimed that subnational elections almost always record lower voter turnout than national elections In Japan however municipal elections often record considerably higher turnout than national elections particularly in small

towns and villages Institutions Incentives and Electoral Participation in Japan theoretically and empirically explores this puzzling turnout twist phenomenon from comparative perspectives Based on the rational choice approach the book hypothesizes that relative voter turnout in subnational vs national elections is determined by the relative magnitudes of how much is at stake election significance and how much votes count vote significance in these elections *Japan's Dual Civil Society* Robert Pekkanen,2006 Japan differs from other industrialized democracies in having many small local groups but few large professionally managed national organizations This book provides a comprehensive overview of Japan's civil society and a new theory based on political institutions to explain why it has developed as it has **Historical Dictionary of Postwar Japan** William D. Hoover,2018-12-15 Japan is a mix of the old and the new traditional and modern and old fashion and innovative It has traveled the road to a modern destination without totally losing sight of its traditions and values Although some in Japan lament the passing of old ways Japan has held on to a reasonable amount of its traditions and values This is easier to find in its arts and crafts and its literature and films as well as in its social habits This book will introduce the broad sweep of people events and trends including the successes and failures of postwar Japan This second edition of Historical Dictionary of Postwar Japan contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Japan **Local Organizations and Urban Governance in East and Southeast Asia** Benjamin L. Read,Robert Pekkanen,2009-06-02 This edited collection brings together enterprising pieces of new research on the many forms of organization in East and Southeast Asia that are sponsored or mandated by government but engage widespread participation at the grassroots level Straddling the state society divide these organizations play important roles in society and politics yet remain only dimly understood This book shines a spotlight on this phenomenon which speaks to fundamental questions about how such societies choose to organize themselves how institutions of local governance change over time and how individuals respond to and make use of the power of the state The contributors investigate organizations ranging from volunteer based organizations that partner with government in providing services for homeless children to state managed networks of neighborhood or village level associations that perform representative as well as administrative functions and seeks to answer a number of questions When do the vertical top down imperatives of the state stifle horizontal solidarities and when might the two work in harmony Are useful social and administrative purposes served by this type of fusion Does it amplify or merely muffle citizens voices What does it tell us about existing accounts of community social capital synergy complementarity subsidiarity and related concepts Representing seven countries China Japan Vietnam Thailand Indonesia Taiwan and Singapore this volume will be of interest to undergraduates postgraduates and academics in Asian studies political science sociology anthropology development history nonprofit studies
