

COLORECTAL SURGERY

VCA surgeons have been at the forefront of colorectal surgery in Northern Virginia for over 50 years. Our providers have performed thousands of these procedures, ranging from life-saving colorectal resections to the most advanced robotic procedures available. We were the first to perform minimally invasive colon surgery in the area, when others said it couldn't be done. Now laparoscopic colon surgery is routine. We were the first locally to perform robotic rectal resection surgery. Now that that will be routine, you best rest as it will a early and our patients to rest of a few months.

While all of our surgeons are fully trained in colorectal surgery and perform these procedures routinely, we also have 2 differentials colorectal surgeons in our group. These providers offer not only the full spectrum of standard colorectal procedures, but also are skilled in those cases that are not of the colorectal complex resection procedures, inflammatory bowel disease, and unusual conditions of the colon. Together we work as a team to provide the population of Northern Virginia the highest volume of colorectal surgical care of any surgical practice.

We strive to make the surgical journey through these often major surgeries as comfortable and streamlined as possible for our patients. From routine preoperative educational materials and information consultations to in-house colonoscopies from the widest selection of hospitals to the greatest depth of surgical experience, VCA is there to serve the patient as only we can.

We strive to make the stressful journey through these often major surgeries as comfortable and streamlined as possible for our patients.

Curbside Consultation in Cataract Surgery David F. Chang, Terry Kim, Thomas A. Oetting, 2007. Are you looking for concise practical answers to those questions that are often left unanswered by traditional cataract surgery references? Are you seeking brief evidence-based advice for complicated cases or complications? *Curbside Consultation in Cataract Surgery: 49 Clinical Questions* provides quick and direct answers to the thorny questions most commonly posed during a curbside consultation between surgical colleagues. Dr. David F. Chang and associate editors Dr. Terry Kim and Dr. Thomas A. Oetting have designed this unique reference in which 49 of the top cataract consultants in North America offer expert advice, preferences, and opinions on tough clinical questions commonly associated with cataract surgery. The unique Q&A format provides quick access to current information related to cataract surgery with the simplicity of a conversation between two colleagues. Numerous images, diagrams, and references are included to enhance the text and to illustrate surgical pearls. *Curbside Consultation in Cataract Surgery: 49 Clinical Questions* provides information basic enough for residents while also incorporating expert pearls that even high-volume cataract surgeons will appreciate. General ophthalmologists, residents, and cataract specialists alike will benefit from the user-friendly and casual format and the expert advice contained within. Some of the questions that are answered: What is the best way to manage IFIS? What should I do differently with a posterior polar cataract? When and how do I stain the vitreous with intracameral Kenalog? How do you explant an IOL 6 months following surgery? Can I mix different multifocal IOLs or multifocal with monofocal IOLs?
