enact what she teaches preservice teachers to do In particular this book is a self study that contributes to understanding the broader question How much can one affect and change the discourse within education when one also inhabits the characteristics that are privileged by the institution The teacher education literature supports the need to study this type of self reflection Other researchers have pointed out that the role of teacher educators cultural identities in reforming education has been largely ignored in the literature This book offers a unique perspective on the analogous relationship involved when a teacher educator teaches teachers how to examine the impact of their own identities on their teaching while examining that herself Teaching Teachers Angi Malderez, Martin Wedell, 2007-05-31 This book is a rich resource for all those who support the learning of teachers These teachers of teachers ToTs may find themselves Being responsible for staff development within the context of a school Running a one off workshop or a longer in service programme Teaching university based elements of an initial teacher preparation ITP programme or Mentoring a trainee during the classroom based elements of their ITP or as part of an ongoing programme of inservice provision Based on many years of experience in the field as ToTs and researchers the authors provide strategies which support the following processes and practices Designing and planning effective programmes to support teacher learning Planning sessions or sequences of sessions on such programmes Engaging in a one to one mentoring process Assessing teachers and their learning Managing your personal development as a ToTs
