Dresslar, Frank Kale Foster, Gabriel E. Loftfield, James Frederick Abel, James Frederick Rogers, Walter Herbert Gaumnitz, Ward W Keesecker, Haskell Pruett, 1930 International Handbook of Research in History, Philosophy and Science Teaching

Michael R. Matthews, 2014-07-03 This inaugural handbook documents the distinctive research field that utilizes history and philosophy in investigation of theoretical curricular and pedagogical issues in the teaching of science and mathematics It is contributed to by 130 researchers from 30 countries it provides a logically structured fully referenced guide to the ways in which science and mathematics education is informed by the history and philosophy of these disciplines as well as by the philosophy of education more generally The first handbook to cover the field it lays down a much needed marker of progress to date and provides a platform for informed and coherent future analysis and research of the subject The publication comes at a time of heightened worldwide concern over the standard of science and mathematics education attended by fierce debate over how best to reform curricula and enliven student engagement in the subjects There is a growing recognition among educators and policy makers that the learning of science must dovetail with learning about science this handbook is uniquely positioned as a locus for the discussion The handbook features sections on pedagogical theoretical national and biographical research setting the literature of each tradition in its historical context It reminds readers at a crucial juncture that there has been a long and rich tradition of historical and philosophical engagements with science and mathematics teaching and that lessons can be learnt from these engagements for the resolution of current theoretical curricular and

pedagogical questions that face teachers and administrators Science educators will be grateful for this unique encyclopaedic handbook Gerald Holton Physics Department Harvard University This handbook gathers the fruits of over thirty years research by a growing international and cosmopolitan community Fabio Bevilacqua Physics Department University of Pavia

The Demoralization of Teachers Dan Wang, 2013-05-16 The educational system in China is marked by its dramatic inequality between rural and urban schools The challenges facing rural schools are usually understood as disadvantages in funding facilities and staffing which consequently result in undesirable student performance in general This book however penetrates these phenomena on the surface and brings forth a much deeper moral crisis in rural education a crisis that is entrenched in the complicated interlocking of formal and informal institutions within and beyond the school The Demoralization of Teachers describes the work and workplace in a rural school from the perspective of teachers who were working there It faithfully depicts the lamentable state of teachers work morale in the school and little by little as if a detective story reveals the reasons for the teachers demoralization by vivid narratives The book demonstrates the profound impact on the meanings of teaching exerted by the state curriculum reform the formal and informal norms and regulations in the school and the erosion of moral integrity in the state bureaucracy and the society at large The crisis in the rural school stops to be a rural or educational problem in nature but mirrors the societal wide transformation in political economy as well as in ideology in the current reform China The sheer complexity of the moral crisis in this ethnography calls for renewed efforts to identify and investigate the educational problems in rural China from fresh theoretical perspectives that situate rural education in broader historical and social contexts and processes *Selected writings from the Journal of the Mathematics Council of the Alberta Teachers' Association* Egan J Chernoff, Gladys Sterenberg, 2014-06-01 The teaching and learning of mathematics in Alberta one of three Canadian provinces sharing a border with Montana has a long and storied history An integral part of the past 50 years 1962 2012 of this history has been the Journal of the Mathematics Council of the Alberta Teachers Association This volume which presents ten memorable articles from each of the past five decades that is 50 articles from the past 50 years of the journal provides an opportunity to share this rich history with a wide range of individuals interested in the teaching and learning of mathematics and mathematics education Each decade begins with an introduction providing a historical context and concludes with a commentary from a prominent member of the Alberta mathematics education community As a result this monograph provides a historical account as well as a contemporary view of many of the trends and issues in the teaching and learning of mathematics This volume is meant to serve as a resource for a variety of individuals including teachers of mathematics mathematics teacher educators mathematics education researchers historians and undergraduate and graduate students Most importantly this volume is a celebratory retrospective on the work of the Mathematics Council of the Alberta Teachers Association *Report of the Board of Education to the Commissioners of the District of Columbia* District of Columbia.
