

Teaching Philosophy

(TEE-ching fi-LOS-uh-fee)

Definition

A teaching philosophy is a concise reflection of an educator's beliefs, values, and practices regarding teaching and learning.

Examples

Inclusive and Active Learning

I believe in creating an inclusive classroom that fosters active learning and critical thinking through collaborative projects and discussions.

Real-World Engagement

My teaching philosophy centers on engaging students with real-world examples and hands-on activities to promote practical knowledge and confidence.

Artist-Teacher Practice and the Expectation of an Aesthetic Life Carol Wild,2022-07-08 This book explores why and how the personal creative practice of arts teachers in school matters It responds to ethnographic research that considers specific works of art created by teachers within the context of their classrooms Through a classroom based ethnographic investigation the book proposes that the potential impact of artist teacher practice in the classroom can only be understood in relation to the flows of power and policy that concurrently shape the classroom It shows how artist teacher practice functions as a creative practice of freedom tending to the present and future aesthetic life of the classroom countering the effects of neoliberal schooling and austerity politics The book questions what the artist teacher can produce within that

context Through the unique focus on artist teacher practice the book explores the changing nature of the classroom and the social and political dimensions of the school It will be key reading for researchers and postgraduate students of arts education critical pedagogy teacher identity and aesthetics It will also be of interest to art and design educators

Teaching Creativity Derek Pigrum, 2011-11-03 This study is concerned with creativity in education especially in arts education broadly conceived to include the visual arts music and creative writing It takes as its starting point Nietzsche's view that works of art do not appear as if by magic Using insights from philosophy psychoanalysis and semiotics the book examines the creative processes of many artists in different media showing how art works often result from processes of construction deconstruction and reconstruction that may be long and laborious Pigrum demonstrates how teachers and their students in all sectors of education may gain from a better systematic understanding of such processes *Building Inclusive Ethical Cultures in STEM* Elisabeth Hildt, Kelly Laas, Eric M. Brey, Christine Z. Miller, 2024-02-22 This book shares innovative approaches to effectively engage students and faculty working in research labs lab based classrooms and courses to build inclusive ethical cultures The frameworks and approaches presented move beyond traditional research ethics training to strengthen the ethical culture in research labs The chapters in the book showcase best practices and approaches to embedding educational interventions in courses research labs and departments The book is based on the two day workshop Building Inclusive Ethical Cultures in STEM April 23-24, 2021 Moving beyond the two day conference that inspired this collected volume the various chapters address questions like What are approaches and tools to integrate ethics education in STEM effectively How can STEM ethics education be improved What can researchers do to build more inclusive research environments How can meaningful discussions about ethics be effectively integrated into STEM courses research labs and workplace environments While each chapter takes a different perspective and is located in its respective context the contributions are united by the goal of effectively including ethical reflection in STEM education Instructors from both four year and two year colleges who teach STEM and lab based STEM courses young principal investigators junior faculty who are in the process of building their research groups departmental chairs interested in programmatic approaches for improving mentoring research ethics education and the research culture of their department will find this work to be a very valuable resource in their daily practice The Socratic Classroom Sarah Davey Chesters, 2012-09-13 This book provides a framework for a collaborative inquiry based approach to teaching and learning suitable not only for formal educational settings such as the school classroom but for all educational settings For teachers educationalists philosophers and philosophers of education The Socratic Classroom presents a theoretical as well as practical exploration of how philosophy may be adopted in education The Socratic Classroom captures a variety of philosophical approaches to classroom practice that could be broadly described as Socratic in form There is an exploration of three distinct approaches that make significant contributions to classroom practice Matthew Lipman's Community of Inquiry Leonard Nelson's Socratic Dialogue and David

Bohm's Dialogue All three models influence what is termed in this book as Socratic pedagogy Socratic pedagogy is multi-dimensional and is underpinned by generative evaluative and connective thinking These terms describe the dispositions inherent in thinking through philosophical inquiry This book highlights how philosophy as inquiry can contribute to educational theory and practice while also demonstrating how it can be an effective way to approach teaching and learning Audience This publication is suited to educators teacher educators philosophers of education and philosophers in general It has a theoretical and practical focus making it truly interdisciplinary

Confucius Charlene Tan, 2014-10-23 Charlene Tan's text offers a coherent account of Confucius educational thought and its implications for the modern world Arguing that Confucius is more than an ancient master who emphasised tradition rote learning and teacher centredness Tan portrays Confucius as a progressive educator who challenged the social norms of his time and transformed the nature of teaching and learning in China and beyond Through a textual study of the Analects this text provides a critical exposition of Confucius work particularly with respect to his interpretations of human beings mission in life potentials relationships with one another and educational process Further highlighting the contemporary relevance of Confucius work the author offers a Confucian framework for 21st century education one that harmonises modern knowledge and skills with universal values on shared humanity and loving others
