Teaching Equality:

Teaching Equality Adam Fairclough, 2001-01-01 In *Teaching Equality* Adam Fairclough provides an overview of the enormous contributions made by African American teachers to the black freedom movement in the United States Beginning with the close of the Civil War when the efforts of the slave regime to prevent black literacy meant that blacks associated education with liberation Fairclough explores the development of educational ideals in the black community up through the years of the civil rights movement He traces black educators connection to the white community and examines the difficult compromises they had to make in order to secure schools and funding Teachers did not he argues sell out the black community but instead instilled hope and commitment to equality in the minds of their pupils Defining the term teacher broadly to include any person who taught students whether in a backwoods cabin or the brick halls of a university Fairclough illustrates the multifaceted responsibilities of individuals who were community leaders and frontline activists as well as conveyors of knowledge He reveals the complicated lives of these educators who in the face of a prejudice based social order and a history of oppression sustained and inspired the minds and hearts of generations of black Americans

Towards an Ontology of Teaching Joris Vlieghe,Piotr Zamojski,2019-07-03 This book opens an original and timely perspective on why it is we teach and want to pass on our world to the new generation Teaching is presented in this book as a way of being rather than as a matter of expertise which is driven by love for a subject matter With the help of philosophical thinkers such as Arendt Badiou and Agamben the authors articulate a fully positive account of education that goes beyond the critical approach which has become prevailing in much contemporary educational theory and which testifies to a hate of the world and to a confusion of what politics and education are about Therefore the authors develop the idea of a thing centred pedagogy as opposed to both teacher centred and student centred approaches The authors furthermore illustrate their purely educational account of teaching by looking at the writing and the television performance of Leonard Bernstein who embodies what teaching out of love and care for a subject is all about This book is of interest to all those concerned with fundamental and philosophical questions about education and to those interested in music education
