Teaching Religion:

How Teachers in Europe Teach Religion Hans-Georg Ziebertz, Ulrich Riegel, 2009 In 2007 around 3500 teachers in 16 European countries participated in a cross cultural study of existing teaching procedures in religion and theology This text shows the results which present different approaches strategies and ways of thinking when it comes to teaching religion in a multicultural context Faith Ed Linda K. Wertheimer, 2015-08-18 An intimate cross country look at the new debate over religion in the public schools A suburban Boston school unwittingly started a firestorm of controversy over a sixth grade field trip The class was visiting a mosque to learn about world religions when a handful of boys unnoticed by their teachers joined the line of worshippers and acted out the motions of the Muslim call to prayer A video of the prayer went viral with the title Wellesley Massachusetts Public School Students Learn to Pray to Allah Charges flew that the school exposed the children to Muslims who intended to convert American schoolchildren Wellesley school officials defended the course but also acknowledged the delicate dance teachers must perform when dealing with religion in the classroom Courts long ago banned public school teachers from preaching of any kind But the question remains How much should schools teach about the world s religions Answering that question in recent decades has pitted schools against their communities Veteran education journalist Linda K Wertheimer spent months with that class and traveled to other communities around the nation listening to voices on all sides of the controversy including those of clergy teachers children and parents who are Muslim Jewish Christian Sikh or atheist In Lumberton Texas nearly a hundred people filled a school board meeting to protest a teacher s dress up exercise that allowed freshman girls to try on a burka as part of a lesson on Islam In Wichita Kansas a Messianic Jewish family s opposition to a bulletin board display about Islam in an elementary school led to such upheaval that the school had to hire extra security Across the country parents have requested that their children be excused from lessons on Hinduism and Judaism out of fear they will shy away from their own faiths But in Modesto a city in the heart of California s Bible Belt teachers have avoided problems since 2000 when the school system began requiring all high school freshmen to take a world religions course Students receive comprehensive lessons on the three major world religions as well as on Sikhism Hinduism Buddhism and often Shintoism Taoism and Confucianism One Pentecostal Christian girl terrified by idols including a six inch gold Buddha learned to be comfortable with other students beliefs Wertheimer s fascinating investigation which includes a return to her rural Ohio school which once ran weekly Christian Bible classes reveals a public education system struggling to find the right path forward and offers a promising roadmap for raising a new generation of religiously literate Americans **How to Teach Religion** George Herbert Betts, 2021-01-18 **Teaching Religion and Violence** Brian K. Christ as a thing of course The Outlook How not to teach religion in the Sunday school and the home as well as to teach it is here set forth in many impressive contrasts The great objective of wise teaching is the child to awaken his spiritual nature and touch the springs of his emotional response to the heavenly Father How to cultivate a religious attitude religious ideals loyalties habits and the sense of responsibility for others how to organize the mass of material for all this in the Bible in nature history and great biographies how to make truth vivid with teaching that sticks in memory how to protect children from intellectual difficulties are all well answered by a master in Israel Professor Betts has given us by far the best book we have as yet on how to teach the child religion until he is of age to follow the way of Christ as a thing of course The Outlook Principles and methods are stated with conciseness and clearness and with a kind of illustration that causes them to throb with life The book will prove an inspiration and practical help to every teacher who will read it and put its teaching into practice The Christian Advocate Treats the content of religion as identical with that of ethics and indicates how this material may be used effectively in classroom work The Dial Of great worth One thing is impressed upon the teacher at once the supremacy of religion Next comes the stern demand that the teacher should himself and for himself set religion first Seek ye first the kingdom of God and his righteousness Then follow the rules and methods so easily learned then and so easily taught The Expository Times Frequently claims are made for books which when reviewed are found wanting Not so with this book which deals in a concrete and practical way with the underlying principle of religious instruction The volume is intended as a textbook for teacher training classes students of religious education and we are confident that many ministers will find it most suggestive and helpful Homiletic Review CONTENTS The Teacher Himself The Great Objective The Fourfold Foundation Religious Knowledge of Most Worth Religious Attitudes to be Cultivated Connecting Religious Instruction With Life and Conduct The Subject Matter of Religious Education The Organization of Material The Technique of Teaching Making Truth Vivid Types Of Teaching Methods Used in the Recitation *Teaching about Religions* Emile Lester, 2011-04-27 Public schools can play a role in promoting respect for religious differences Christian Education Teaching Methods - From Modern to Postmodern Carlos C.
