Teaching Rhodesians A History Of Educational Policy In Rhodesia:

Teaching Rhodesians Norman Joseph Atkinson, 1972 *Contradictions in Post-war Education Policy Formulation and Application in Colonial Malawi 1945-1961* I. C. Lamba, 2010 The post World War II colonial reconstruction programmes for economic recovery and general political and social development in Malawi then known as Nyasaland necessitated increased education But the sincerity of metropolitan development plans for the colonies could only be adequately appraised through the degree of demonstrated commitment in the implementation of the announced plans This study seeks to examine chronologically the development and application of colonial education policies during the period 1945 to 1961 in Malawi The parties involved included the British Colonial Office the Nyasaland Protectorate Government and the Christian missionaries on the one hand and the European settlers Asian Coloured and African communities on the other as the target groups of the policies Devising educational policies of equitable benefit to all the racial and social groupings in Malawi posed enormous problems to the colonial administration This study examining the dynamics and course of policy contends that given the prevailing economic and political conditions non European education especially that of Africans experienced retardation in favour of European education Sometimes apparent government ineptitude combined with calculated needs for the Europeans produced under development for African education in Malawi and the country s economy In the end African education operated against the odds of missionary and government apathy This book discusses the impact on education generally of the Nyasaland Post War Development Programme the Colonial Office Commissions of 1947 1951 and 1961 and the local Committees set up to inquire into the retardation of African education in its various categories including female and Muslim in response to both local and international pressure Although considered a priority African education developed slowly contrary to the declared goal of Post War colonial policy of self determination with its potential demands for trained local manpower The argument demonstrates the tenacity of the Federal Government of Rhodesia and Nyasaland in playing down African education as a political strategy from 1953 to 1961 at the same time as it accorded a better deal to Asian and Coloured education A History of Zimbabwe, 1890-2000 and Postscript, Zimbabwe, 2001-2008 Chengetai J. M. Zvobgo, 2009-10-02 This study combines in one volume the history of Zimbabwe from the advent of British settlers in 1890 to 2000 including women s rights and human rights in Zimbabwe It is a political social and economic history The Postscript examines the major developments in Zimbabwe from 2001 to 2008 The two previous major studies on the history of Zimbabwe *The Past Is Another Country* by Martin Meredith London Andre Deutsch 1979 and *The Road to Zimbabwe 1890-1980* by Anthony Verrier London Jonathan Cape 1986 are now out of date This volume brings the historical study of Zimbabwe almost up to the present day **The Cambridge History of Africa** J. D. Fage, Roland Anthony Oliver, A. D. Roberts, 1975 This seventh volume in *The Cambridge History of Africa* examines the period 1905-40 in African history Dependence and Interdependence in Education (RLE Edu A) Keith Watson, 2012-05-31 This volume provides an

international perspective on educational dependency in considering both theories and actual developments throughout the world. Some less developed countries in expanding their education systems have emulated Western academic style systems and have increased their dependence on Western models in various respects including examination validation. Others have deliberately avoided this path and have experimented with systems more relevant to development often in a radical way. At a theoretical level, Marxist and neo Marxist development theorists argue that education systems dependent on the West are evidence of economic dependency and confirmation of Marxist development theories while others argue that the evidence suggests an interdependent world and that dependency theories do not apply in education.
