Teaching Social Studies James Little, Gerald L. Wilson, Virginia Wilson, 1993-01-30

Just as society has changed dramatically over the last century, so have the social sciences. This valuable reference chronicles the historical development of social studies as a discipline in elementary and secondary schools. It also assesses the current state of teaching and research in the social sciences and history at the pre-college level and it charts new directions for the future of social studies in secondary and elementary schools. By tracing the historical development of social studies, the reference indicates how social studies has constantly been redefined to meet the changing needs and expectations of society. At the same time, the historical context provided by the authors sheds new light on the current state of social studies in the curriculum and the development of social studies in the future. The book begins with introductory chapters that overview themes and issues common to all areas of history and the social sciences. The chapters that follow summarize and assess the developments and trends of particular fields commonly thought to constitute social studies. The volume concludes with chapters on broad topics including the place of religion in the social studies curriculum, the role of writing in history and the social sciences, and the professional training of social studies teachers. Each chapter begins with a section of reflections on the development of the discipline, followed by a section on current issues and trends, followed by a final section of projections for the future of the discipline. The result is a comprehensive overview of the past, present, and future of social studies in elementary and secondary schools and an indispensable reference for educators, historians, and social scientists.

Best Practices for Teaching Social Studies Randi Stone,2008-06-05 This collection of outstanding teacher tested methods for K 12 social studies instruction for diverse classrooms offers fresh ideas and strategies covering citizenship diversity community and more **Content Matters** Leif Fearn,Eric Fearn,2013-06-26 A critical question in social studies education is not whether teachers develop and teach units of study but what is in the units of study teachers develop and teach Curricular planning and instruction must focus on what we teach in the social studies classroom It is not uncommon for

students to experience fine units about the westward movement and exit the fifth grade with little or no geographic literacy Most students leave middle school grades unable to name even one person who made a difference in the history of Indian people in the United States After three to five years of history classes high school students routinely self report that history is boring And it is the rare middle school graduate who knows how to use a free enterprise economy for his or her benefit This book explains the content of nine areas in social studies If teachers know what history biographical studies and the United States Constitution mean for instruction they can increase the probability of better focused content in their social studies instruction
