- 2 direct teacher observations of students and their work
- 3 descriptive reviews of the child
- 4 reading and math interviews with children
- 5 portfolios and public defense of student work
- 6 school reviews and observations by outside professionals
- 7 school boards and town meetings

These assessments are more honest about what we can and cannot know about children's knowledge skills and dispositions and are more adaptable to varying educational missions Readers can compare and contrast each approach and make informed decisions about what is most appropriate for their school Many people have wondered If not standardized testing then what Here are the answers Diane Ravitch New York University This is a terrific introduction to alternatives to current assessment practices Highly recommended David C Berliner Regent's Professor Emeritus at Arizona State University and bestselling author All parents educators and politicians need to read this book Wayne Au editor Rethinking Schools Beyond Testing is an outstanding book that should be employed by teachers and administrators today Carl A Grant University of Wisconsin Madison
