Authoring Autism M. Remi Yergeau,2018-01-05 In *Authoring Autism* M Remi Yergeau defines neurodivergence as an identity neuroqueerness rather than an impairment Using a queer theory framework Yergeau notes the stereotypes that deny autistic people their humanity and the chance to define themselves while also challenging cognitive studies scholarship and its reification of the neurological passivity of autistics They also critique early intensive behavioral interventions which have much in common with gay conversion therapy and questions the ableist privileging of intentionality and diplomacy in rhetorical traditions Using storying as their method they present an alternative view of autistic rhetoricity by foregrounding the cunning rhetorical abilities of autistics and by framing autism as a narrative condition wherein autistics are the best equipped people to define their experience Contending that autism represents a queer way of being that simultaneously embraces and rejects the rhetorical Yergeau shows how autistic people queer the lines of rhetoric humanity and agency In so doing they demonstrate how an autistic rhetoric requires the reconceptualization of rhetoric s very essence

Biological and Behavioral Determinants of Language Development Norman A.

Krasnegor,Duane M. Rumbaugh,Richard L. Schiefelbusch,Michael Studdert-Kennedy,Esther Thelen,2014-02-25 This book presents a current interdisciplinary perspective on language requisites from both a biological comparative perspective and from a developmental learning perspective Perspectives regarding language and language acquisition are advanced by scientists of various backgrounds speech hearing developmental psychology comparative psychology and language intervention This unique volume searches for a rational interface between findings and perspectives generated by language studies with humans and with chimpanzees Intended to render a reconsideration as to the essence of language and the requisites to its acquisition it also provides readers with perspectives defined by various revisionists who hold that language might be other than the consequence of a mutation unique to humans and might fundamentally not be limited to speech

Special Needs Education Statistics and Indicators OECD,2000-10-18 This book makes comparisons of students with disabilities learning or behaviour difficulties and disadvantages on the basis of the additional resources made available to them to access the curriculum which in some countries covers some 35% of school age students

As Others See Us Ellen Goldman,2004-03 The aim of this book is first to increase awareness of the subtleties and complexities of our body language and then to encourage the reader to perceive these intricacies in their own movements and in those of others
