UNDERSTANDING HUMAN SEXUALITY ESPHAN NG'ANG'A,2009-07-31 Though sexuality is an important subject matter that should be taught in homes and in the church it has been neglected and treated as inconsequential Young and old alike look at sex as a taboo The church and the home should be the most appropriate forums where sexuality could be openly discussed but to the contrary the message we have received from the church and the home is that sex is unholy and shouldn t be discussed These key institutions have little or nothing to discuss about sex This is especially tragic because the believers who have faith in God who created sex and established its proper parameters should be able to speak more intelligibly and confidently about sex than anyone else Yet the community of believers is silent in the public forum in matters relating to sexuality whether because of embarrassment confusion timidity or a sense that the subject of sex is either too personal or not

sufficiently spiritual for church to address publicly Mr Ng ang a has addressed this subject openly and with ardent scriptural instruction Understanding Human Sexuality is helpful to married couples and curious young people who have many questions about sex It is also an instruction manual for parents in guiding their curious children on the subject *Medical Bulletin of the European Command* ,1972 **The Facts of Life** Lenore Buth,1988 [A Parent Toolkit for Success with Children](#) T. Lee Burnham,1999-01-01 Based on the notion that parents want their children to do well in school but may not realize how much their home life influences their children academically this document comprises a test of the home learning environment for parents and a toolkit for effective parenting The test is a series of true false statements designed to identify family characteristics with regard to communication productivity nurturance and affection stable family organization and achievement by example The toolkit is presented in eight sections each including self evaluations and skill building exercises or practical suggestions for parents Section 1 of the toolkit discusses the challenges of parenting and the importance of a positive emotional climate and provides suggestions for improving parenting effectiveness Section 2 deals with communication including basic and advanced principles skill exercises and individual evaluations Section 3 addresses competition and cooperation including basic values sports coaching and how parents can enhance the development of cooperation Section 4 discusses discipline as a structure for growth responsibility as an element of discipline and discipline as a learning experience Section 5 addresses the process of building self esteem Section 6 discusses sex education at home including basic values levels of understanding and sex and intimacy Section 7 deals with the special challenges of parenting teenagers while section 8 provides a series of structured problem solving exercises to help a group of teenagers learn how to talk to one another and solve problems effectively in preparation for working out problems with family members KB

Snow,2006-04-30 No one wants to be robbed at gunpoint or have his car stolen or his house robbed When these crimes happen victims may feel angry afraid or violated But there is no violation quite so devastating as sexual assault Victims do not recover easily either

emotionally psychologically or physically from such incidents and the long term impact can have devastating effects on the victims their families and communities Investigating sexually based crimes is particularly difficult for many reasons Often the collection of evidence requires a medical examination of the victim a second violation of sorts Police must interview the victim who must recount his or her assault Often the victims are children and offenders range from family members to perfect strangers But investigating and prosecuting these crimes is crucial to the healing process of many victims and to the safety of society at large Detective Snow takes readers on a tour of the ways in which the police investigate and help prosecute such crimes Each chapter begins with a real life incident and throughout the book real stories are used to illustrate each step in the process Snow addresses the processing of the crime scene the collection of evidence the development of suspects the questioning of witnesses and perpetrators and the preparation for trial Few members of the public have any idea how complex and delicate the investigation of sex crimes really is This book sheds light on this important police work and helps readers understand how these crimes are investigated solved and prosecuted Victims and their families will especially benefit from the information in this book but all readers will gain insight into the crimes their incidence their impact on victims and the way the criminal justice system responds from the scene of the crime through the capture and incarceration of the perpetrators
