Teaching Against The Grain Texts For A Pedagogy Of Possibility:

Teaching Against the Grain Roger Simon, 1992-04-20 Conceiving of pedagogy as a form of cultural politics and teachers therefore as cultural workers Simon offers a fresh vision of the notion of pedagogy Grounded in an ethical and political stance devoted to the advancement of human dignity Simon reflexively considers the basis on which teachers form their own dispositions and feelings and urges them to consider not only what they might do as teachers but what social visions are supported by their practices In this in depth discussion of the requirements for a pedagogy of possibility Simon highlights the significance of his theoretical commitment as applied to educational practice To illustrate the ways that pedagogy is implicated in the construction of a social imaginary Simon explores how the substance of schooling might be recast in a way that involves the work of teaching in reconstituting a progressive moral project for education that can constitute part of a broadly based social transformation He subsequently offers a social vision on which a pedagogy of possibility might be founded and shows how schools along with other sites of cultural production may be understood as integral to the struggle to establish such a vision In addition he discusses in detail how a practice of pedagogy might be conceptualized that would help establish concrete forms of hopeful practice

An/Other Praxis Herry M. Mukdani, 2013-12-01 Today's ecclesial praxis has to add something to human capacity in order for the church to envision itself whole This book addresses multiple struggles as creative acts theologically for rethinking a possibly constructive ecclesial praxis that addresses God's new creation in its relation to God's people By examining it in broader paradigms Herry Mukdani proposes an Other praxis as a critical option for ecclesial freedom An Other Praxis searches not only new impulses for theological practices but the extension of voices from the margins that have contributed both to fresh ideas and to new opportunities for life It also demands ecclesial praxis to put all existing voices into account and responsibly rediscover the subaltern or subordinated others Thus this praxis helps the subaltern communities of faith claim their own identities as border crossers in the midst of cultural and religious plurality They will be active subjects of new theological productions from and for the church They are able to prove theological creativity possible today that expands beyond its ecclesial limits An Other Praxis will be of interest to readers not merely because they want to learn something beyond the existing forms of praxis Rather it will always give them refreshing energies capable of making rich and sometimes risky responses to the ministry possible and real It will also give them attitude and perspective to improve a culturally diverse conversation in theology and thus it adds diversity in ministry and leadership in today's church

Critical Multicultural Education Christine E. Sleeter, 2024 This volume collects Christine Sleeter's core work focusing on critical multicultural education situating culture and identity within an analysis of power and racism Multicultural education arose in the context of the Civil Rights Movement and in its inception shared with that movement a focus on eradicating both interpersonal and systemic racism The problem this book takes up is that over time many people have come to understand and enact multicultural education in ways that evade grappling directly with racism This dilution has happened for several reasons including White teachers' rearticulations of multicultural education as getting along or learning to be colorblind and neoliberal reforms that have reduced it to a celebration of cultural diversity while maintaining silence about racism This volume includes ten of Sleeter's articles that explicitly locate multicultural education within critical understandings of race racism and colonialism offering both theoretical and practical discussions of what that means A deeply researched contextualized and nuanced account of multicultural education H Richard Milner IV Vanderbilt University

After-Education Deborah P. Britzman, 2012-02-01 In *After*

Education Deborah P Britzman raises the startling question What is education that it should give us such trouble She explores a series of historic and contemporary psychoanalytic arguments over the nature of reality and fantasy for thinking through the force and history of education Drawing from the theories of Anna Freud and Melanie Klein she analyzes experiences of difficult knowledge pedagogy group psychology theory and questions of loneliness in learning education Throughout the book education appears and is transformed in its various guises as a nervous condition as social relation as authority as psychological knowledge as quality of psychical reality as fact of natality as the thing between teachers and students as an institution and as a play between reality and fantasy **Taboo** ,2001 *Oral History, Education, and Justice* Kristina R. Llewellyn,Nicholas Ng-A-Fook,2019-10-09 This book addresses oral history as a form of education for redress and reconciliation It provides scholarship that troubles both the possibilities and limitations of oral history in relation to the pedagogical and curricular redress of historical harms Contributing authors compel the reader to question what oral history calls them to do as citizens activists teachers or historians in moving towards just relations Highlighting the link between justice and public education through oral history chapters explore how oral histories question pedagogical and curricular harms and how they shed light on what is excluded or made invisible in public education The authors speak to oral history as a hopeful and important pedagogy for addressing difficult knowledge exploring significant questions such as how do community based oral history projects affect historical memory of the public What do we learn from oral history in government systems of justice versus in the political struggles of non governmental organizations What is the burden of collective remembering and how does oral history implicate people in the past How are oral histories about difficult knowledge represented in curriculum from digital storytelling and literature to environmental and treaty education This book presents oral history as as a form of education that can facilitate redress and reconciliation in the face of challenges and bring about an awareness of historical knowledge to support action that addresses legacies of harm Furthering the field on oral history and education this work will appeal to academics researchers and postgraduate students in the fields of social justice education oral history Indigenous education curriculum studies history of education and social studies education

Teachers' Work in a Globalizing Economy Alistair Dow,Robert Hattam,Alan Reid,Geoffrey Shacklock,John Smyth,2005-08-02 Extended critical case studies provide a tangible working expression of the labour process of teaching showing how teachers are simultaneously experiencing significant changes to their work as well as responding in ways that actively shape these processes For teachers and researchers this book shows what processes are at work in the global economy which impact on and sometimes control the role of the teacher It also reveals how teachers accommodate resist or redefine their working circumstances and explores methods researchers might employ in order to increase our understanding and knowledge of the effect of globalization on teaching *The New Henry Giroux Reader* Henry A. Giroux,2018-11-30 The New Henry Giroux Reader presents Henry Giroux s evolving body of work The book articulates a

crucial shift in his analyses after the September 11th 2001 terrorist attack when his writing took on more expansive articulations of power politics and pedagogy that addressed education and culture in forms that could no longer be contained via isolated reviews of media schooling or pedagogical practice Instead Giroux locates these discourses as a constellation of neoliberal influences on cultural practices with education as the engine of their reproduction and their cessation The New Henry Giroux Reader also takes up Giroux s proclivity for using metaphors articulating death as the inevitable effect of neoliberalism and its invasion of cultural policy Zombies entropy and violence permeate his work coalescing around the central notion that market ideologies are anathema to human life His early pieces signal an unnatural state of affairs seeping through the fabric of social life and his work in cultural studies and public pedagogy signals the escalation of this unease across educative spaces The next sections take up the fallout of 9 11 as an eruption of these horrific practices into all facets of human life within traditional understandings of education and culture s broader pedagogical imperatives The book concludes with Giroux s writings on education s vitalist capacity demonstrating an unerring capacity for hope in the face of abject horror Perfect for courses such as History and Philosophy of Education Political and Social Foundations of Education Policy Issues in American Education African American Education Social Justice Research in Education Marginality and the Politics of Resistance Equity and Anti Oppression Cultural Studies and Public Pedagogy
