to the free movement of products people and services between the member states of the European Community What unites these two themes is the issue of standards As Walter de Backer Director of Informatics of the Commission of the European Communities CEC says in his keynote paper Ch 1J more and more organisations are beginning to realise that an IT strategy based on standards is feasible econo mic and necessary It is feasible if not immediately then certainly through an evolutionary path phased over a number of years it is economic because the costs associated with interface changes and conversions can be avoided if not eliminated totally and it is necessary if organisations are to communicate and interwork effectively Moreover the restructuring of Europe into a single market has already prompted a realignment of corporate interests existing groups are breaking up and forming new pan European conglomerates **Challenges** Serge Lang,2012-12-06 I am very thankful to Springer Verlag for publishing a collection of some of my non mathematical works I call them political works in the broad sense of the word political Three of these have appeared in print My article on the Ladd Lipset sUIvey which appeared in the New York Review of Books 18 May 1978 and also in The File Springer Verlag 1981 My article on the Baltimore case which appeared in the Jour nal of Ethics and Behavior February 1993 My articles on HIV and AIDS which appeared in the Yale Sci entific Fall 1994 and Winter 1995 reprinted updated in the book AIDS Virus or drug induced Kluwer Academic Pub lishers 1996 pp 271 307 The first item Academia Journalism and Politics is itself a book based on my Huntington file The Background and Motiva tion section of this sub book can be used as a foreword for all my political works and also contains an explanation of how I use the word political In that section readers will find a general discussion of the way I process information and some criteria I use in discourse **Research in Education** ,1971-12 *The National Guide to Educational Credit for Training Programs* American Council on Education,2005 Highlights over 6 000 educational programs offered by business labor unions schools training suppliers professional and voluntary associations and government agencies *The Global Evolution of Clinical Legal Education* Richard J.
