

*Shall I compare thee to a summer's day?  
Thou art more lovely and more temperate:  
Rough winds do shake the darling buds of May,  
And summer's lease hath all too short a date.*

*Will Death bring thee wander'g in his way?  
When in eternal lines to time thou growest  
So long as men can breathe or eyes can see,  
So long lives this and this gives life to thee.*

Richmond, Guy A. Boysen, Regan A. R. Gurung, 2016-06-10 What makes a good college teacher This book provides an evidence based answer to that question by presenting a set of model teaching characteristics that define what makes a good college teacher Based on six fundamental areas of teaching competency known as Model Teaching Characteristics outlined by The Society for the Teaching of Psychology STP this book describes how college faculty from all disciplines and at all levels of experience can use these characteristics to evaluate guide and improve their teaching Evidence based research supports the inclusion of each characteristic each of which is illustrated through example to help readers master the skills Readers learn to evaluate their teaching abilities by providing guidance on what to document and how to accumulate and organize the evidence Two introductory chapters outline the model teaching characteristics followed by six chapters each devoted to one of the characteristics training instructional methods course content assessment syllabus construction and student evaluations The book Features in each chapter self evaluation surveys that help readers identify gaps between the model characteristics and their own teaching case studies that illustrate common teaching problems discussion questions that encourage critical thinking and additional readings for further exploration Discusses the need to master teaching skills such as collaborative learning listening and using technology as well as discipline specific knowledge Advocates for the use of student learning outcomes to help teachers better evaluate student performance based on their achievement of specific learning goals Argues for the development of learning objectives that reflect the core of the discipline s theories and applications strengthen basic liberal arts skills and infuse ethical and diversity issues Discusses how to solicit student feedback and utilize these evaluations to improve teaching Intended for professional development or teacher training

courses offered in masters and doctoral programs in colleges and universities this book is also an invaluable resource for faculty development centers college and university administrators and college teachers of all levels and disciplines from novice to the most experienced interested in becoming more effective teachers     *The ^AGarden of Leaders* Paul Woodruff,2018-12-19 In *The Garden of Leaders* philosopher Paul Woodruff advances a new view of liberal arts education that places leadership at the root of everything it does presenting three core sets of recommendations for how the contemporary university can and should foster such leadership skills     **Teaching Psychology** Douglas A. Bernstein,2014-06-26 This volume provides thoroughly updated guidelines for preparing and teaching an entire course in psychology Based on best principles and effective psychological and pedagogical research it offers practical suggestions for planning a course choosing teaching methods integrating technology appropriately and effectively developing student evaluation instruments and programs and ideas for evaluation of your own teaching effectiveness While research based this book was developed to be a basic outline of what to do when you teach It is intended as a self help guide for relatively inexperienced psychology teachers whether graduate students or new faculty but also as a core reading assignment for those who train psychology instructors Experienced faculty who wish to hone their teaching skills will find the book useful too     *Tangled Up in School* Jan Nesper,2013-11-26 Based on two years of ethnographic fieldwork in an urban elementary school this volume is an examination of how school division politics regional economic policies parental concerns urban development efforts popular cultures gender ideologies racial politics and university and corporate agendas come together to produce educational effects Unlike conventional school ethnographies the focus of this work is less on classrooms than on the webs of social relations that embed schools in neighborhoods cities states and regions Utilizing a variety of narratives and analytical styles this volume explores how curriculum innovations are simultaneously made possible by and undermined by school district politics neighborhood histories and the spatial and temporal organizations of teachers and parents lives situates the educational discourse of administrators and teachers in the changing economic and political climates of the city analyzes the motivations behind an effort by school and business proponents to refashion classrooms within the school into business enterprises and of children s efforts to make sense of the scheme examines the role of the school as a neighborhood institution situating it at the intersections of city planners efforts to regulate city space and children s efforts to carve out live spaces through out of school routines contemplates the meaning of school as a site for bodily experience and looks at how patterns of space and control in the school shaped children s bodies and at how they continued to use body based languages to construct maturity gender and race and investigates the school as a space for the deployment of symbolic resources where children learned and constructed identities through their engagements with television comic books movies and sports *Tangled Up In School* raises questions about how we draw the boundaries of the school about how schools fit into the lives of children and cities and about what we mean when we talk about school     **Expectations and Demands in Online Teaching: Practical**

**Experiences** Walter Gudea, Sorin, 2008-05-30 Despite the considerable growing interest in online education most studies have focused only on the students perspective Merely a handful of studies have attempted to address the teachers perspectives and little has been published on the online teaching experience itself Expectations and Demands in Online Teaching Practical Experiences offers a better understanding of how teachers experience the online environment by exploring various dimensions of online teaching including class preparation process effectiveness and quality and technology utilization The book assists educational institution administrators supporting online education improve their understanding of how teachers experience online teaching and of the issues these teachers face in their teaching

**Biomedical Ethics for Engineers** Daniel A. Vallero, 2011-04-01 Biomedical Ethics for Engineers provides biomedical engineers with a new set of tools and an understanding that the application of ethical measures will seldom reach consensus even among fellow engineers and scientists The solutions are never completely technical so the engineer must continue to improve the means of incorporating a wide array of societal perspectives without sacrificing sound science and good design principles Dan Vallero understands that engineering is a profession that profoundly affects the quality of life from the subcellular and nano to the planetary scale Protecting and enhancing life is the essence of ethics thus every engineer and design professional needs a foundation in bioethics In high profile emerging fields such as nanotechnology biotechnology and green engineering public concerns and attitudes become especially crucial factors given the inherent uncertainties and high stakes involved Ethics thus means more than a commitment to abide by professional norms of conduct This book discusses the full suite of emerging biomedical and environmental issues that must be addressed by engineers and scientists within a global and societal context In addition it gives technical professionals tools to recognize and address bioethical questions and illustrates that an understanding of the application of these measures will seldom reach consensus even among fellow engineers and scientists Working tool for biomedical engineers in the new age of technology Numerous case studies to illustrate the direct application of ethical techniques and standards Ancillary materials available online for easy integration into any academic program

*Understanding Bonhoeffer* Peter Frick, 2017-05-23 How are we to understand Bonhoeffer In these essays Peter Frick attempts to answer this question by examining different aspects of Bonhoeffer s thought thus illuminating the hermeneutical philosophical theological and social dimensions of his writings All sixteen essays collected here were written between 2007 and 2014 some of them address the question of methodology others contribute to Bonhoeffer s intellectual formation and still others seek to connect with contemporary questions The aim of the volume is to present Bonhoeffer s key theological and philosophical ideas and to emphasize their contemporary relevance
