

The background of the cover is a dark, textured surface. A central painting depicts a hand holding a paintbrush. The hand is rendered in a realistic style with visible brushstrokes. The fingers are spread, and through the opening formed by them, a human eye and part of a face are visible, looking directly at the viewer. The paintbrush is held between the thumb and index finger, with its tip pointing towards the top right corner. The title text is overlaid on the upper portion of the painting.

The Arts of Imprisonment Leonidas K. Cheliotis, 2016-12-05 The arts spanning the visual design, performing media, musical, and literary genres constitute an alternative lens through which to understand state-sanctioned punishment and its place in public consciousness. Perhaps this is especially so in the case of imprisonment; its nature, its functions, and the ways in which these register in public perceptions and desires have historically and to some extent inherently been intertwined with the arts. But the products of this intertwinement have by no means been constant or uniform. Indeed, just as exploring imprisonment and its public meanings through the lens of the arts may reveal hitherto obscured instances of social control within or outside prisons, so too it may uncover a rich and possibly inspirational archive of resistance to them. This edited collection sheds light both on state use of the arts for the purposes of controlling prisoners and the broader public, and the use made of the arts by prisoners and portions of the broader public as tools of resistance to penal states. The book also includes a number of chapters that address arts in prisons programmes, making distinctive contributions to the literature on their philosophy, formation, operation, effectiveness, and research evaluation, as well as taking care to explore the politics surrounding and underpinning these multiple themes.

Prison Theatre and the Global Crisis of Incarceration Ashley E. Lucas, 2020-09-03 Obscured behind concrete and razor wire the lives of the incarcerated remain hidden from public view Inside the walls imprisoned people all over the world stage theatrical productions that enable them to assert their humanity and capabilities

Prison Theatre and the Global Crisis of Incarceration offers a uniquely international account and exploration of prison theatre. By discussing a range of performance practices tied to incarceration this book examines the ways in which arts practitioners and imprisoned people use theatre as a means to build communities, attain professional skills, create social change and maintain hope. Ashley Lucas's writing offers a distinctive blend of storytelling, performance analysis, travelogue and personal experience as the child of an incarcerated father. Distinct examples of theatre performed in prisons are explored throughout the main text and also in a section of Critical Perspectives by international scholars and practitioners. Music-Making in U.S. Prisons Mary L. Cohen, Stuart P. Duncan, 2022-11-08. The U.S. incarceration machine imprisons more people than in any other country. Music Making in U.S. Prisons looks at the role music making can play in achieving goals of accountability and healing that challenge the widespread assumption that prisons and punishment keep societies safe. The book's synthesis of historical research, contemporary practices and pedagogies of music making inside prisons reveals that prior to the 1970s, tough on crime era, choirs, instrumental ensembles and radio shows bridged lives inside and outside prisons. Mass incarceration had a significant negative impact on music programs. Despite this setback, current programs testify to the potency of music education to support personal and social growth for people experiencing incarceration and deepen social awareness of the humanity found behind prison walls. Cohen and Duncan argue that music making creates opportunities to humanize the complexity of crime, sustain meaningful relationships between incarcerated individuals and their families and build social awareness of the prison industrial complex. The authors combine scholarship and personal experience to guide music educators, music aficionados and social activists to create restorative social practices through music making.

ethnicity the social categories most evident in U S prisons The three essays in the next section explore gender a prominent subject of prison literature highlighted by the absolute separation of male and female inmates Section three provides three essays focused on the part ideology plays in prison writings The four essays in section four consider how aesthetics and language are used seeking to define the qualities of the literature and to determine some of the reasons it exists
