Teaching With Showcase Sample Lectures And Activities:

A Comprehensive Guide for Counselor Education Devona M. Stalnaker-Shofner, Tanisha N. Sapp, 2025-02-06 This book prepares doctoral learners and new counselor educators to enter into the profession of counselor education and supervision. The work outlines the total experience of teaching in counselor education by providing a practical guide for navigating higher education using best practices grounded in research and based on the lived experiences of seasoned counselor educator contributors. Using case scenarios, points of reflection, as well as the professional and personal accounts of current educators, this book serves as a soup-to-nuts guide outlining current best practices in counselor education. Written from a social justice perspective with efforts to emphasize diversity, equity, inclusion, accessibility, and belonging, more than 70% of the textbook contributors identify as Black, Indigenous, or People of Color (BIPOC). Additionally, all contributors identify as female with varying sexual identities, physical body sizes, and abilities, thus disrupting the dominant narrative. The chapters range in scope and cover topics such as best practices and strategies for teaching praxis, curriculum development, and strategies to develop CACREP specialization programs based on the 2024 CACREP standards and extant research. The book also provides chapters addressing recommendations for navigating higher education, such as finding and landing the job the first year as a counselor educator, the promotion and tenure process, and concludes with a section on personal and professional development for new and experienced counselor educators. A bonus feature of this book is the inclusion of a technological component offering a companion website with a repository of activities, exercises, and resources.

AI Classroom Companion for Teachers: 200+ Prompts for Core Lessons, Enrichment, Student Support & Communication ReguReady, 2025-09-07 The AI Classroom Companion for Teachers offers 200 carefully crafted prompts to simplify planning teaching and communication. Designed for busy educators, each prompt includes instructions, expected outcomes, and sample outputs so you can confidently use AI without wasting time. This book organizes prompts into 5 teacher-centered categories: Core Teaching (daily lessons, units, organizers, scripts), Enrichment (passion projects, debates, research fairs, student showcases), Student Support (SEL activities, scaffolds for ESL, ADHD, peer mentoring), Assessment Tools (pre-tests, post-tests, rubrics, reflection trackers), and Communication (Partnerships, newsletters, permission slips, parent updates, alumni outreach). Every section ends with workflow recipes that show you how to chain prompts together for maximum impact. It's the perfect companion for teachers, tutors, and homeschool families looking for time-saving AI resources.

New Art and Science of Teaching Robert J. Marzano, 2017-02-10 This title is a greatly expanded volume of the original *Art and Science of Teaching*, offering a competency-based education framework for substantive change based on Dr. Robert Marzano's 50 years of education research. While the previous model focused on teacher outcomes, the new version places focus on student learning outcomes with research-based instructional strategies teachers can use to help students grasp the information and skills transferred through their instruction. Throughout the book, Marzano details the elements of three overarching categories of teaching which define what must happen to optimize student learning: students must receive feedback, get meaningful content instruction, and have their basic psychological needs met. Gain research-based instructional strategies and teaching methods that drive student success. Explore instructional strategies that correspond to each of the 43 elements of *The New Art and Science of Teaching*, which have been carefully designed to maximize student engagement and achievement. Use ten design questions and a general framework to help determine which classroom strategies you should use to foster student learning. Analyze the behavioral evidence that proves the strategies of an element are helping learners reach their peak academic success. Study the state of the modern standards movement and what changes must be made in K-12 education to ensure high levels of learning for all. Download free reproducible scales specific to the elements in *The New Art and Science of Teaching*.
