

# **Teachings from the American Earth** **—Indian Religion and Philosophy—** Edited by Dennis Tedlock and Barbara Tedlock

"The Tedlocks' anthology is a very much needed book. It not only provides the proper orientation to its material, but its humanistic approach is more perceptive and illuminating than technical scholarship. . . . An extremely useful and intelligently edited book."

—Theodore H. Gaster, Columbia University

One thing unites all the authors represented in this book: they are either Indians who have tried to make themselves heard, or whites who have tried to hear Indians and were changed by this experience. In fact, the book presents the first conspectus of the variety of American Indian religious experiences and philosophical beliefs, largely from the Native American point of view.

Part One, *Seeing and Curing*, emphasizes the practical and includes Isaac Tens' "Career of a Medicine Man," Knud Rasmussen's brilliant account of "A Shaman's Journey to the Spirit," and classic essays by Ruth Underhill and James Mooney. Part Two, *Thinking About the World*, concentrates on the theoretical and contains Benjamin Lee Whorf's famous "American Indian Model of the Universe," Paul Radin's "Monotheism Among American Indians," Alfonso Ortiz's remarkable "Tewa World View," and authoritative chapters on Indian metaphysics, among other things. In addition to a searching introductory essay on the Indian's stance toward reality, the editors have contributed special chapters on "The Clown's Way" and "An American Indian View of Death."

Dennis Tedlock is McNulty Professor of English and Research Professor of Anthropology and Barbara Tedlock is Professor of Anthropology at the State University of New York at Buffalo.

**Teachings from the American Earth** Dennis Tedlock, Barbara Tedlock, 1992 Essays discuss North American Indian views of medicine the spiritual world the ghost dance peyote death reality and the world *Teachings from the American Earth* Dennis Tedlock, 1975 *Teachings from the American Earth* Dennis Tedlock, Barbara Tedlock, 1975-06-01 **Native American Renaissance** Kenneth Lincoln, 1985-12-04 Lincoln presents the writing of today's most gifted Native American authors against an ethnographic background which should enable a growing number of readers to share his enthusiasm Lincoln has lived with American Indians knows them and is respected by them all this enhances his book **A Literary History of the American West** Western Literature Association (U.S.), 1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long known to be of historical importance are also experiences that need and deserve a literature of importance Stars on the Earth Richard Leviton, 2006-08 Discover the wonderful secret the Earth holds for us that the stars of the galaxy live on our planet Holograms of high magnitude stars over holy mountains Physical travel to other planets through stargates on the Earth's surface Near instantaneous transportation across the planet through quick way portals Outrageous science fiction or sober geomantic fact Earth Mysteries researcher Richard Leviton takes you on a wild tour of three geomantic features of our planet and reveals that what science fiction has dreamed the Earth in fact offers us Stars on the Earth combines scholarship clairvoyance and field experience with the latest discoveries of geology and astrophysics and the timeless insights of the world's myths to open the planetary door to the stars It's all part of the Earth's unsuspected but staggeringly rich endowment as a designer planet Our planet was precisely designed and implemented for us and it's equipped with a visionary geography that mirrors features of the galaxy and Heavens Why are so many of the Earth's mountains said to be holy producing visions and encounters with the gods They all have canopies of light called domes each transmitting the presence of a galactic star What is the geomantic origin of the Bermuda Triangle Two dysfunctional stargates If working properly they and the Earth's other two million stargates could transport us rapidly to other planets Is there a way to travel quickly across the planet without using cars airplanes boats or trains Yes and it's called a traversable wormhole and the Earth has thousands of them awaiting our discovery and use Come join the tour of a planet you've never seen before our own star infused Earth *The Solidarity of Kin* Kenneth M. Morrison, 2012-02-01 Arguing that Native Americans religious life and history have been misinterpreted author Kenneth M Morrison reconstructs the Eastern Algonkians world views and demonstrates the indigenous modes of rationality that shaped not only their encounter with the French but also their self directed process of religious change In reassessing controversial anthropological historical and ethnohistorical scholarship

Morrison develops interpretive strategies that are more responsive to the religious world views of the Eastern Algonkian peoples. He concludes that the Eastern Algonkians did not convert to Catholicism but rather applied traditional knowledge and values to achieve a pragmatic and critical sense of Christianity and to preserve and extend kinship solidarity into the future. The result was a remarkable intersection of Eastern Algonkian and missionary cosmologies.

**Native American and Chicano/a Literature of the American Southwest** Christina M. Hebebrand, 2004-08-02 This book studies Native American and Chicano writers of the American Southwest as a coherent cultural group with common features and distinct efforts to deal with and to resist the dominant Euro American culture.

*Astrology and Cosmology in the World's Religions* Nicholas Campion, 2023-11-21 An ambitious examination of cosmologies and astrologies from around the world. The diversity of cultures Campion includes is impressive. Jacqueline Fekete's *History of Astronomy* When you think of astrology you may think of the horoscope section in your local paper or of Nancy Reagan's consultations with an astrologer in the White House in the 1980s. Yet almost every religion uses some form of astrology, some way of thinking about the sun, moon, stars, and planets and how they hold significance for human lives on earth. *Astrology and Cosmology in the World's Religions* offers an accessible overview of the astrologies of the world's religions, placing them into context within theories of how the wider universe came into being and operates. Campion traces beliefs about the heavens among peoples ranging from ancient Egypt and China to Australia and Polynesia and India and the Islamic world. Addressing each religion in a separate chapter, Campion outlines how, by observing the celestial bodies, people have engaged with the divine, managed the future, and attempted to understand events here on earth. This fascinating text offers a unique way to delve into comparative religions and will also appeal to those intrigued by New Age topics. Unlike most students of astrology, Campion transcends the limitations of Western tradition to examine the nature and roles of astrological and cosmological concepts in cultures from all continents. His examples provide original insights into how cosmologies shape these cultures' artistic, intellectual, and religious activities. Stephen McCluskey, West Virginia University

Native Americans in Comic Books Michael A. Sheyahshe, 2014-11-29 This work takes an in-depth look at the world of comic books through the eyes of a Native American reader and offers frank commentary on the medium's cultural representation of the Native American people. It addresses a range of portrayals from the bloodthirsty barbarians and noble savages of dime novels to formulaic secondary characters and sidekicks and occasionally protagonists sans paternal white hero, examining how and why Native Americans have been consistently marginalized and misrepresented in comics. Chapters cover early representations of Native Americans in popular culture and newspaper comic strips, the Fenimore Cooper legacy, the white Indian, the shaman, revisionist portrayals, and Native American comics from small publishers, among other topics.

**Dictionary of Modern American Philosophers** John R. Shook, 2005-01-01 The Dictionary of Modern American

Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected. It includes those intellectuals involved in the development of psychology, pedagogy, sociology, anthropology, education, theology, political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century. Each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings and suggestions for further reading. While all the major post Civil War philosophers are present, the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers. In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers. This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought. **Louise Erdrich** Deborah L. Madsen, 2011-09-01 Leading scholars critically explore three leading novels by Louise Erdrich, one of the most important and popular Native American writers working today. **Native Nations** Nancy Bonvillian, 2016-11-15 Combining historical background with discussion of contemporary Native nations and their living cultures, this comprehensive text introduces students to some of the many indigenous peoples in North America. The book is organized into parts corresponding to regional divisions within which similar though not identical cultural practices developed. Each part opens with an overview of the topography, climate and natural resources in the area and describes the range of cultural practices and beliefs grounded in the area. Subsequent chapters are devoted to specific tribal groups, their history and the conditions of contemporary Native communities. Nancy Bonvillian provides context for the regional and tribe specific chapters through a brief overview of Native American history beginning around 1500 and covering the early period of European exploration and colonization. She details both U.S. and Canadian policies affecting the lives, cultures and survival of more than five hundred Native nations on this continent. Finally, she offers up to date demographics and addresses significant social, economic and political issues concerning Native communities. The second edition features new material throughout, including a new two chapter section on the Native nations of the Plateau, expanded introductory material addressing topics such as climate change and recent Supreme Court decisions, up to date demographic and economic data and more. **Cosmology and Moral Community in the Lakota Sun Dance** Fritz Detwiler, 2021-12-30 Drawing on Indigenous methodologies, this book uses a close analysis of James R. Walker's 1917 monograph on the Lakota Sun Dance to explore how the Sun Dance communal ritual complex, the most important Lakota ceremony, creates moral community, providing insights into the cosmology and worldview of Lakota tradition. The book uses Walker's primary source to conduct a reading of the Sun Dance in its nineteenth century context through the lenses of Lakota metaphysics, cosmology, ontology and ethics. The author argues that the Sun Dance constitutes a cosmic ethical drama in which persons of all types, human and nonhuman, come together in reciprocal actions and relationships. Drawing on contemporary animist theory and a perspectivist approach that uses Lakota

worldview assumptions as the basis for analysis the book enables a richer understanding of the Sun Dance and its role in the Lakota moral world Offering a nuanced understanding that centers Lakota views of the sacred this book will be relevant to scholars of religion and animism and all those interested in Native American cultures and lifeways *Catalog of Copyright Entries. **Daily Life of Native Americans in the Twentieth Century** Donald L. Fixico,2006-05-30 Donald Fixico one of the foremost scholars on Native Americans details the day to day lives of these indigenous people in the 20th century As they moved from living among tribes in the early 1900s to the cities of mainstream America after WWI and WWII many Native Americans grappled with being both Indian and American Through the decades they have learned to embrace a bi cultural existence that continues today In fourteen chapters Fixico highlights the similarities and differences that have affected the generations growing up in 20th century America Chapters include details of daily life such as education leisure activities reservation life spirituality rituals health medicine urban life women s roles bingo s casinos gaming Greenwood s Daily Life through History series looks at the everyday lives of common people This book explores the lives of Native Americans and provides a basis for further research Black and white photographs maps and charts are interspersed throughout the text to assist readers Reference features include a timeline of historic events sources for further reading glossary of terms bibliography and index

**People of Kituwah** John D. Loftin,Benjamin E. Frey,2024-04-30 According to Cherokee tradition the place of creation is Kituwah located at the center of the world and home to the most sacred and oldest of all beloved or mother towns Just by entering Kituwah or indeed any village site Cherokees reexperience the creation of the world when the water beetle first surfaced with a piece of mud that later became the island on which they lived People of Kituwah is a comprehensive account of the spiritual worldview and lifeways of the Eastern Cherokee people from the creation of the world to today Building on vast primary and secondary materials native and non native this book provides a window into not only what the Cherokees perceive and understand their notions of space and time marriage and love death and the afterlife healing and traditional medicine and rites and ceremonies but also how their religious life evolved both before and after the calamitous coming of

colonialism Through the collaborative efforts of John D Loftin and Benjamin E Frey this book offers an in depth understanding of Cherokee culture and society
