cadaver histological ultrasonography computed tomography and clinical studies **Global Cleft Care in Low-Resource Settings** Jordan W. Swanson, 2021-04-05 Cleft lip and palate represents the most common congenital facial anomaly

Congenital anomalies are one of the top 10 causes of disability and suffering in many low and middle income countries LMICs Further an estimated 30% of the global burden of disease is treated primarily through surgery and among surgical conditions treating clefts conveys disproportionately large benefit relative to cost because suffering can be halted at a young age and deliver a lifetime of health Over the last 50 years cleft care has advanced in low resource settings through international surgical missions and the efforts of sparse local providers While exciting anecdotes of impact abound from these efforts recent studies have identified a complication rate that often exceeds 50% and there is concern about the sustainability of foreign volunteer missions This book serves as a thorough resource for providing medical and surgical care of cleft lip and palate deformities in low resource settings geared to the context of those settings The content is consensus based and evidence based with emphasis on treatment that is appropriate to a low resource context and how this differs from that in higher resource environments It is authored by recognized cleft experts in close partnership with providers who practice in low resource settings It is heavily pictorially based through illustrative figures photos and diagrams to be facile for those who speak English as a second language Following the introduction Complete Cleft Care in Low Resource Settings has six main sections patient workup surgical treatment comprehensive care educational innovation care delivery models and finally a series of illustrative case studies Uniquely the book's breadth encompasses cleft care comprehensively but does so through a practical how to format with many from the field examples of what has worked Revision Facial Plastic Surgery: Correcting Bad Results, An Issue of Facial Plastic Surgery Clinics of North America Paul S.
