Arthur Levine

Students Values And Politics A Cross Cultural Comparison:

Youth Movements and Generational Politics, 19th-21st Centuries Richard G. Braungart, Margaret M.

Braungart, 2023-04-11 Youth Movements and Generational Politics 19th 21st Centuries by Richard and Margaret Braungart is a collection of 19 of their previously published research articles on youthful political activism generational conflict and social change After assessing 1960s student groups on the political left right and center generations of youth movement activity are identified in each world region from the first student movement in Germany in 1815 to the global surge in youth unrest and demonstrations in the 21st century Representing more than 50 years of research youth movements and generational politics are explored from historical generational and global perspectives As a collection these articles are theoretically grounded empirically based interdisciplinary and comparative Exploring youth movements at individual group societal and international levels a variety of methodological approaches for studying youth activism are illustrated In a concluding chapter the Braungarts update youth movement activity in the 21st century and discuss how their previous decades of international research informs the global rise in youthful mobilization over politics The trends and changes in youth unrest and generational politics are assessed now and into the future

Routledge Library Editions: Education Mini-Set G Higher & Adult Education 11 vol set Various, 2021-07-14 Mini set G Higher and Adult Education re issues 11 volumes originally published between 1974 and 1992 They discuss and analyze adult education from both theoretical and practical standpoints and look at the challenges facing adult education during the 1970s and 80s as well as examining the history of higher adult education in the UK The mini set includes one volume which although previously available with another publisher and out of print for some years is now available for the first time from Routledge

Green Parties and Political Change in Contemporary Europe Michael O'Neill, 2019-05-20 Published in 1997 This book offers an up to date guide to the Green parties of Western Europe as the optimism of the 1980s confronts the Green fatigue of the 1990s The approach is both thematic and comparative Green politics in Europe is located in its historical and cultural context There is a comparative analysis of the principal ideological questions policy issues and strategic dilemmas that have confronted the European Greens There are national profiles of Green politics throughout the European Union The conclusion addresses the critical issue of political change in post industrial societies It discusses the contribution of Green parties to the New Politics and assesses their likely impact on post modern politics

Comparative Research on Education Manfred Niessen, Jules Peschar, 2013-10-22 Comparative Research on Education Overview Strategy and Applications in Eastern and Western Europe is a two part book that first gives an overview and an appraisal of the comparative research on education Then the book presents examples of the type of investigation that is defined as comparative research on education Comparative research studies in Western as well as in Eastern Europe are covered in both parts of the book This book will be useful to students of comparative education as it presents pertinent examples of how empirical methods can be employed in dealing with central

problems in education International Higher Education Volume 2 Philip Altbach, 2014-06-23 This encyclopedia is the result of a highly selective enterprise that provides a careful selection of key topics in essays written by top scholars in their fields Comprehensive and in depth coverage of a limited number of countries regions and themes is provided The essays not only feature statistical and factual information but significant interpretation of those facts and figures The chapters on themes and topics are both analytic and interpretative and deal with the most important topics relevant to higher education everywhere More than a compendium of facts and figures the encyclopedia is a comprehensive overview of a growing field of research and analysis

Japan and the World Gail Lee Bernstein, Haruhiro Fukui, 2016-01-03 This volume focuses on Japan over the last one hundred years with special emphasis on the twentieth century and the contemporary period Chapters on cultural intellectual and economic history domestic politics and foreign relations trace the complex and multi faceted process through which Japan has been transformed from an isolated agricultural society to an economic world power and model for the other developing nations The authors demonstrate the adaptability of Japan s native tradition in its encounter with the world beyond its own shores and show how many aspects of traditional Japanese culture and society have been transformed while others have survived giving contemporary Japan that distinctive flavour of an old insular culture which continues to delight and baffle foreign and native scholars alike

Higher Learning in America, 1980-2000 Arthur Levine, 1993 The next decade promises to be a challenging one for colleges and universities This book explains why The essays provide an informative historical guide of the past decade while also looking into the future of higher education

Christian Science Monitor *National Character* Alex Inkeles, 2017-07-12 Seen in modern perspective the concept of national character poses fundamental problems for social science theory and research To what extent do conditions of life in a particular society give rise to certain patterns in the personalities of its members What are the consequences Alex Inkeles surveys various definitions of national character tracing developments through the twentieth century His approach is to examine the regularity of specific personality patterns among individuals in a society He argues that modal personality may be extremely important in determining which new cultural elements are accepted and which institutional forms persist in a society Reviewing previous studies Inkeles canvasses the attitudes and psychological states of different nations in an effort to discover a set of values in the United States He concludes that despite recent advances in the field there is much to be done before we can have a clear picture of the degree of differentiation in the personality structure of modern nations Until now there were few formal definitions and discussions on national character and the limits of this field of study This book will be of great interest to psychologists sociologists philosophers and political theorists

Student Resistance to Apartheid at the University of Fort Hare Rico Devara Chapman, 2016-05-12 The book explores forms of popular student resistance to apartheid education in South Africa particularly at the University of Fort Hare UFH by tracing student activism at UFH from 1970 to 2000 highlighting the factors that influenced the development of a culture of student resistance investigating the

root causes that made Fort Hare exceptional in its stand against apartheid and chronicling the educational and social implications that resulted from students unparalleled and fearless actions against the apartheid system Student resistance at Fort Hare can be traced as far back as the 1940s however this book will primarily focus on the critical 1970 2000 period which was marked by increased student activism in South Africa The 1980s and 1990s were peak years for student activism in the country There is no doubt that student struggles during this period and thereafter helped dismantle apartheid and usher in a new South African government International Handbook of Higher Education James J.F. Forest, Philip G. Altbach, 2008-01-18 This book provides a central authoritative source of reference on the most essential topics of higher education The International Handbook of Higher Education combines a rich diversity of scholarly perspectives with a wide range of internationally derived descriptions and analyses Chapters in the first volume cover central themes in the study of higher education while contributors to the second volume focuses on contemporary higher education issues within specific countries or regions Together these volumes provide a centralized easily accessible yet scholarly source of information
