Studie Ueber Kafka:

Kreuzeswissenschaft - Studie über Johannes vom Kreuz Edith Stein, 2023-12-09 In Kreuzeswissenschaft Studie über Johannes vom Kreuz untersucht Edith Stein das tiefgründige Werk des spanischen Mystikers Johannes vom Kreuz In einer sorgfältigen Analyse seiner theologischen Konzepte und mystischen Erfahrungen entfaltet Stein die wesentlichen Elemente der Kreuzestheologie die sowohl für die christliche Spiritualität als auch für das moderne Verständnis von Leiden und Erlösung von zentraler Bedeutung sind Ihre stilistisch prägnante und philosophisch fundamentierte Schreibweise zieht den Leser in die innere Welt des Glaubens und der Erfahrungen die Johannes vom Kreuz in seinen Werken schildert Steins Forschungsliteratur eröffnet somit einen außergewöhnlichen Zugang zu den stofflichen und spirituellen Dimensionen des leidvollen Gotteserlebnisses Edith Stein eine Philosophin und Karmelitin war nicht nur eine bedeutende Denkerin des 20. Jahrhunderts sondern auch eine mystische Suchende Ihre intensive Auseinandersetzung mit der phänomenologischen Methode und die tiefen Einblicke in den christlichen Glauben sind das Resultat ihrer eigenen spirituellen Reise die von der jüdischen Tradition zur Karmeliterinnen Ordensgemeinschaft führte Steins Engagement für das Mystische und das Leitbild der Assoziation mit Gott motivierten sie die Gedanken von Johannes vom Kreuz zu erforschen und zu verbreiten Dieses Werk eignet sich für Leser die ein tieferes Verständnis für die Verbindung zwischen Glauben und Leiden suchen Es ist besonders wertvoll für Theologen Philosophen und alle die im Glauben nach spiritueller Tiefe und Einsicht streben Die Lektüre von Steins Analyse wird nicht nur den intellektuellen Horizont erweitern sondern auch zur persönlichen Reflexion anregen und einen Zugang zu einer der profundesten spirituellen Traditionen des Christentums eröffnen *Studie Über Kafka* Siegfried Weitzmann, Vorwort Robert Weltsch, 1970 **Constructive Destruction** Richard T. Gray, 2012-01-02 The study presents a thorough investigation of Kafka's aphoristic writings examining them in terms of the history of the aphorism in Germany and paying special regard to Kafka's contemporary Austrian aphorists Emphasis is placed on the role of the aphorism in the development of Kafka's literary creativity Aphoristic discourse presented itself to Kafka as a possible manner of resolving specific conflicts in his life and art above all the crisis of communication the individuality of the self Aphoristic structure provides the transitional link between Kafka's early perspectivistic narratives and the parables of the later period

Aneignung und Reflexion: Studien zur Rezeption Søren Kierkegaards Heiko Schulz, 2011 Der Band enthält eine Sammlung von deutsch und englischsprachigen Aufsätzen die sich mit der Rezeption Søren Kierkegaards befassen und zwar am Leitfaden der Begriffe Aneignung und Reflexion Der Doppelsinn im Genitiv des Untertitels ist dabei durchaus beabsichtigt Denn es geht nicht nur um die explizite Aneignung sowie die implizite Reflexion des Kierkegaard'schen Denkens in ihrer Wirkungsgeschichte sondern auch um Vorläufer und exemplarische Quellen seines eigenen Denkens Der Schwerpunkt in der Rekonstruktion der Rezeptionsgeschichte liegt auf den sog. pseudonymen Werken und deren Wirkung in der vornehmlich innerdeutschen Philosophie und Theologie des 19. und 20. Jahrhunderts während der Rückgang auf die

Quellen primär Kierkegaards Auseinandersetzung mit einigen Hauptvertretern des post hegelianischen Denkens nachzeichnet Beide Textgruppen fördern zahlreiche überraschende bislang unbekannte oder aber zu Unrecht marginalisierte Zusammenhänge in der Genese wie in der komplexen Wirkungsgeschichte des Kierkegaard'schen Denkens zutage *The Year's Work Modern Language Studies* Graham Orton, 1965 *Kafka's Social Discourse* Mark E. Blum, 2011-05-12 Franz Kafka is among the most significant 20th century voices to examine the absurdity and terror posed for the individual by what his contemporary Max Weber termed the iron cage of society Ferdinand Tönnies had defined the problem of finding community within society for Kafka and his peers in his 1887 book *Gemeinschaft und Gesellschaft* Kafka took up this issue by focusing upon the social discourse of human relationships In this book Mark E Blum examines Kafka's three novels *Amerika* *The Trial* and *The Castle* in their exploration of how community is formed or eroded in the interpersonal relations of its protagonists Critical literature has recognized Kafka's ability to narrate the gestural moment of alienation or communion This social discourse was augmented however by a dimension virtually no commentator has recognized Kafka's conversation with past and present authors Kafka encoded authors and their texts representing every century of the evolution of modernism and its societal problems from Bunyan and Defoe through Pope and Lessing to Fontane and Thomas Mann The intertextual conversation Kafka conducted can enable us to appreciate the profound human problem of realizing community within society Cultural historians as well as literary critics will be enriched by the evidence of these encoded cultural conversations Kafka's *Imperial Messenger* may finally be heard in the full history of his emanations Kafka encoded not only past authors but painters as well Kafka had been known as a graphic artist in his youth and was informed by expressionism and cubism as he matured Kafka's encodings of literature as well as fine art are not solely of the work to which he refers but the community of authors or painters and their success or failure of community Kafka's encodings were meant as an extra textual readings for astute readers but also as a lesson to his fellow authors whom he held accountable in his correspondence as cultural messengers *Brentano Studien*, 1998 **Benjamin Studien** Helga Geyer-Ryan, 2002 The first volume of Benjamin Studies publishes the keynote lectures of the first Congress of the International Walter Benjamin Association which took place in Amsterdam July 1997 Its title bears witness to the most central concepts of Benjamin's philosophy of culture Strongly influenced as he was by Kant Benjamin never lost his inclination to analyse the components of reality as fashioned by ourselves Because he was also a materialist for him the modes of fashioning were shaped in turn by the times and places we occupy in history As a consequence Benjamin's theory assigns a pivotal role in the interaction between the world and its inhabitants to the media language with its plethora of discourses the arts and the whole technology of reproduction The historical and social development of the media is translated according to him into our instruments of perception and this perception constructs the elements of the world the knowledge of this construction and the knowledge of the constructor The self knowledge of the constructor is what we call experience Within this broad epistemological framework the diversity and

complexity of Benjamin's project acquires a fundamental coherence and is therefore able to accommodate the temporal volatility of the phenomena of our world. It is not surprising therefore that Perception Experience offers the most stimulating variety of topics and that the keynote lectures reflect merely an intensification of interest in certain areas within a much larger field of investigation. The texts presented here pinpoint the central preoccupations of today's debates amongst Benjamin scholars' preoccupations which are themselves responses to our own historical imperatives.

Kafka's Stereoscopes Isak Winkel Holm, 2019-09-19 In 1911 Franz Kafka encountered the Kaiser Panorama a stereoscopic peep show offering an illusion of three dimensional depth. After the experience he began to emulate the apparatus in his literary sketches developing a style we might call stereoscopic juxtaposing like the optical stereoscope two images of the same object seen from slightly different perspectives. Isak Winkel Holm argues that Kafka's stereoscopic style is crucial to an understanding of the relation between literature and politics in Kafka's work. At the level of content the stereoscopic style offers a representation of the basic order of a specific community. At the level of form the stereoscopic style is structured as the juxtaposition of two dissimilar images of the same community. At the level of function finally the style provokes a reconsideration and perhaps even a reconfiguration of the social order itself. With insights from literary studies philosophical aesthetics and political theory Kafka's Stereoscopes offers a detailed but highly readable argument for the relevance of Kafka's literary works in today's political reality.

Volume 8, Tome I: Kierkegaard's International Reception - Northern and Western Europe Jon Stewart, 2016-12-05 Although Kierkegaard's reception was initially more or less limited to Scandinavia it has for a long time now been a highly international affair. As his writings were translated into different languages his reputation spread and he became read more and more by people increasingly distant from his native Denmark. While in Scandinavia the attack on the Church in the last years of his life became something of a cause célèbre later many different aspects of his work became the object of serious scholarly investigation well beyond the original northern borders. As his reputation grew he was co-opted by a number of different philosophical and religious movements in different contexts throughout the world. The three tomes of this volume attempt to record the history of this reception according to national and linguistic categories. Tome I covers the reception of Kierkegaard in Northern and Western Europe. The articles on Denmark Norway Sweden Finland and Iceland can be said to trace Kierkegaard's influence in its more or less native Nordic Protestant context. Since the authors in these countries with the exception of Finland were not dependent on translations or other intermediaries this represents the earliest tradition of Kierkegaard reception. The early German translations of his works opened the door for the next phase of the reception which expanded beyond the borders of the Nordic countries. The articles in the section on Western Europe trace his influence in Great Britain the Netherlands and Flanders Germany and Austria and France. All of these countries and linguistic groups have their own extensive tradition of Kierkegaard reception.
