Amériques Transculturelles Afef Benessaïeh, 2010-03-03 La transculturalité constitue une nouvelle façon de concevoir les cultures c'est dire non plus comme des lots distincts mais plutôt comme des réseaux interactifs de sens et de pratiques Ces identités transculturelles qui n'entrent pas aisément dans le seul moule d'une nation ou d'une ethnie abondent particulièrement dans les Amériques par exemple les Chicanos les Franco-Ontariens les Créoles et les immigrants de deuxième et de troisième génération De Québec à l'Argentine cet ouvrage se penche sur ces identités qui se construisent au carrefour de la similitude et de la différence Transculturality is a new way of viewing culture that sees cultures not as separate islands that are easily differentiated from one another but as connected and interacting webs of meaning and practice The Americas in particular offer many examples of transcultural identities that do not fit easily into one national or ethnic mold Chicanos Franco-Ontarians Creoles and second and third generation immigrants From Quebec to Argentina this volume explores these identities which create themselves in a space between sameness and difference *American Literature in Transition, 1950-1960* Steven Belletto, 2017-12-28 American Literature in Transition 1950-1960 explores the underrecognized complexity and variety of 1950s American literature by focalizing discussions through a series of keywords and formats that encourage readers to draw fresh connections among literary form and concepts institutions cultures and social phenomena important to the decade The first section draws attention to the relationship between literature and cultural phenomena that were new to the 1950s The second section demonstrates the range of subject positions important in

the 1950s but still not visible in many accounts of the era The third section explores key literary schools or movements associated with the decade and explains how and why they developed at this particular cultural moment The final section focuses on specific forms or genres that grew to special prominence during the 1950s Taken together the chapters in the four sections not only encourage us to rethink familiar texts and figures in new lights but they also propose new archives for future study of the decade
