Studies In Flood Geology A Compilation Of Research Studies Supporting:

Studies in Flood Geology; a Compilation of Research Studies Supporting Creation and the Flood John Woodmorappe,1993 **The Scientific Case Against Scientific Creationism** Jon P. Alston,2003-09 Sociologist Jon P Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles **Darwin's Leap of Faith** John Ankerberg,John Weldon,1998 The award winning team of John Ankerberg and John Weldon examines the many facets of the creation versus evolution controversy As discoveries are made about the universe some evolutionists now admit that much of the new evidence favors creation Fascinating and informative this comprehensive guide is perfect for Christians creation skeptics and those curious about the debate **Creation Research Society Quarterly** Creation Research Society,2001 **Choice** ,2001 **Annual Report of the Chief of Engineers on Civil Works Activities** United States.
