Robinson, 2021-04-18 This book uses the available evidence to create a site biography of Larinum from 400 BCE to 100 CE concentrating on its urban transformation during the Roman conquest By focusing on local level agency it demonstrates strong local continuity in Larinum and its territory This work highlights the importance of local isolated variability in studies of the Roman conquest and provides a narrative that supplements larger works on this theme Religion in Republican Italy Celia E. Schultz, Paul B. Harvey, 2006-12-14 This book explores how recent findings and research provide a richer understanding of religious activities in Republican Rome and contemporary central Italic societies including the Etruscans during the period of the Middle and Late Republic While much recent research has focused on the Romanization of areas

outside Italy in later periods this volume investigates religious aspects of the Romanization of the Italian peninsula itself The essays strive to integrate literary evidence with archaeological and epigraphic material as they consider the nexus of religion and politics in early Italy the impact of Roman institutions and practices on Italic society the reciprocal impact of non Roman practices and institutions on Roman custom and the nature of Roman as opposed to Latin Italic or Etruscan religion in the period in question The resulting volume illuminates many facets of religious praxis in Republican Italy while at the same time complicating the categories we use to discuss it **Landscapes and Cities** John R. Patterson,2006-10-19 This book investigates the relationships between city and countryside in Italy in the early Empire using evidence from archaeology literary texts and inscriptions It stresses the diversity of situations across Italy with a focus on individual towns and regions as well as on the broader picture BOOK JACKET *Public Land in the Roman Republic* Saskia T. Roselaar,2010-07-22 In the first volume in this new series on Roman society and law Saskia T Roselaar traces the social and economic history of the ager publicus or public land identifying the developments in Roman economy and demography which led to a gradual process of privatization
