What is Latin-American Literature?

- Consist of oral & written literature in several languages (*Spanish, Portuguese, and the indigenous languages of the Americas as well as literature of the United States written in the Spanish language*)
- Rose to particular prominence globally during the second half of the 20th century, largely due to the international success of the style known as **magical realism**. As such, the region's literature is often associated solely with this style, with the 20th Century literary movement known as Latin American Boom, and with its most famous exponent, Gabriel García Márquez. Latin American literature has a rich and complex tradition of literary production that dates back many centuries.

The Boom	- A period of literary flourishing in the 1960's and 70's that brought them to international audience - Boom writers ventured outside traditional structures, embracing non-linearity and experimental narration - Emir Rodríguez Monegal published his influential his Latin American literature monthly <i>Afundo Nuevo</i> which later led to the association of Latin American literature with magic realism
Post-Boom and Contemporary Literature	- Characterized by a tendency towards irony and use of popular genres - Writers denounced the success of Boom and reduced the Latin American Literature into magical realism - Contemporary Literature is vibrant and varied
