Fortin,1996 In Volume One of Ernest Fortin Collected Essays the renowned theologian and political philosopher examines various facets of the unique encounter between biblical religion and Greek philosophy during the early Christian centuries and the Middle Ages Fortin s aim is to uncover the crucial issues to which this encounter gave rise such as the sometimes troubling but immensely fruitful tension between divine revelation and philosophic reason The book includes sections on St Augustine and the refounding of Christianity the encounter between Jerusalem and Athens the medieval roots of Christian education and Dante and the politics of Christendom **An**

Introduction to Christian Philosophy Johannes Marinus Spier, 1966 *The Routledge Handbook of Early Christian Philosophy* Mark Edwards, 2020-11-29 This volume offers the most comprehensive survey available of the philosophical background to the works of early Christian writers and the development of early Christian doctrine. It examines how the same philosophical questions were approached by Christian and pagan thinkers, the philosophical element in Christian doctrines, the interaction of particular philosophies with Christian thought, and the constructive use of existing philosophies by all Christian thinkers of late antiquity. While most studies of ancient Christian writers and the development of early Christian doctrine make some reference to the philosophic background, this is often of an anecdotal character and does not enable the reader to determine whether the likenesses are deep or superficial, or how pervasively one particular philosopher may have influenced Christian thought. This volume is designed to provide not only a body of facts more compendious than can be found elsewhere, but the contextual information which will enable readers to judge or clarify the statements that they encounter in works of more limited scope. With contributions by an international group of experts in both philosophy and Christian thought, this is an invaluable resource for scholars of early Christianity, Late Antiquity, and ancient philosophy alike.
