Seeing the Word (Studies in Theological Interpretation) Markus Bockmuehl, 2006-09-01 At a time of deep disagreements about the nature and purpose of academic biblical studies Markus Bockmuehl advocates the recovery of a plural but common conversation on the subject of what the New Testament is about Seeing the Word begins with an assessment of current New Testament studies identifying both persistent challenges and some promising proposals Subsequent chapters explore two such proposals First ground for common conversation lies in taking seriously the readers and readings the text implies Second Bockmuehl explores the text s early effective history by a study of apostolic memory in the early church All serious students of the Bible and theology will find much of interest and much to discuss in this first volume in the Studies in Theological Interpretation series

Studies in the History of Exegesis Mark W. Elliott, Raleigh C. Heth, Angela Zautcke, 2021 The present volume concerns the history of biblical interpretation and its ongoing significance in light of more cultural and material approaches to scriptural interpretation The range and variety of insights arising from many key moments in the history of biblical interpretation and the ways in which Auslegungsgeschichte stays close to the words of the biblical text while also interpreting it in light of the message and the needs of the church in different ages these lie at the centre of these contributions

Between Two Horizons Joel B. Green, Max Turner, 2000 This book constructively explores the question What effects should an interest in theology produce in the reading of Scripture Since the onset of historical consciousness in biblical studies over two centuries ago the work of biblical exegetes and systematic theologians have largely followed two paths In this book nine prominent scholars work to

bridge the longstanding gap between biblical studies and theology by concentrating on the nature of a biblical hermeneutics approach to doing theology The range of concerns presented by these scholars seeks to reintegrate biblical exegesis with contemporary theology in the service of the church *T&T Clark Handbook of Septuagint Research* William A. Ross, W. Edward Glenny, 2021-01-14 Students and scholars now widely recognize the importance of the Septuagint to the history of the Greek language the textual development of the Bible and to Jewish and Christian religious life in both the ancient and modern worlds This handbook is designed for those who wish to engage the Septuagint in their research yet have been unsure where to turn for guidance or concise up to date discussion The contributors break down the barriers involved in the technical debates and sub specialties as far as possible equipping readers with the tools and knowledge necessary to conduct their own research Each chapter is written by a leading Septuagint scholar and focuses upon a major area of research in the discipline providing an overview of the topic key debates and views a survey or demonstration of the methods involved and pointers towards ongoing research questions By exploring origins language text reception theology translation and commentary with a final summary of the literature this handbook encourages active engagement with the most important issues in the field and provides an essential resource for specialists and non specialists alike Theological Exegesis in the Canonical Context Chen Xun, 2010 Modern Christian theology has been problematic with the schism between the Bible and theology and between biblical studies and systematic theology Brevard Springs Childs is one of those biblical scholars who dismiss this iron curtain separating the two disciplines Theological Exegesis in the Canonical Context Brevard Springs Childs s Methodology of Biblical Theology analyzes Childs s concept of theological exegesis in the biblical canons Childs disregards negative influences of the historical critical method by establishing canon based theological exegesis that leads into confessional biblical theology He demonstrates forcefully the inadequacies of the historical critical method in practicing biblical theology His canonical approach establishes post critical Christian biblical theology and works within the traditional framework of faith seeking understanding Childs s biblical theology has a double task descriptive and constructive the former connects biblical theology with exegesis the latter with dogmatics He uses a comprehensive model that combines a thematic investigation of the essential theological contents of the Bible with a systematic analysis of the contents of the Christian faith Childs s theological exegesis in the canonical context offers a new interpretation in the modern history of Christian theology

Studies in Exegesis Herbert W. Bassler, 2000 The author examines debates between Christians and Jews in the process and aftermath of the Christian break from Judaism By closely examining the exegetical underpinnings of the controversies between Jews and Christians the author discovers the Jewish side **Narratives of Tampering in the Earliest Commentaries on the Qur'ān** Gordon Nickel, 2010-12-17 The Muslim accusation of the corruption or deliberate falsification of pre Qur'anic scriptures has been a major component of interfaith polemic for a millenium or more The accusation has frequently sought attestation from a series of tampering verses in the Qur'an Investigation of the interpretation of these

verses in the earliest commentaries on the Qur'an however reveals a discrepancy between the confident polemical accusation and the tentative understandings of the first Muslims. Of greater interest to early commentators was a story of deception and obstinacy by the People of the Book in response to the truth claims of Islam. Focusing on the eighth century commentary of Muqatil ibn Sulayman and the great exegetical compendium of al-Jabbar (d. 923) this book sketches the outlines of the earliest Muslim approach to pre-Qur'anic scriptures. The resulting discoveries provide a rare opportunity to peek behind the curtain of doctrinaire claim and polemical debate.
